

5 credits

30.0 h

Q2

Teacher(s)	De Vleeschouwer Christophe ;Marichal Xavier ;
Language :	French
Place of the course	Louvain-la-Neuve
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Content	The course introduces the technological components involved in a multimedia communication system. It surveys, in an accessible but rigorous manner, the main principles underlying computers, interconnected networks, and digital audiovisual signal processing applications. Large databases and social networks are also considered.
Bibliography	• transparents mis en ligne sur Moodle
Faculty or entity in charge	COMU
