## Networking and security seminar

3 credits	30.0 h	Q1

Teacher(s)	Riviere Etienne ;Sadre Ramin coordinator ;				
Language :	English				
Place of the course	Louvain-la-Neuve				
Main themes	The topics covered in the seminar will address Computer network and security. In particular, scientific articles are selected in these fields.  On the one hand, students are confronted with problem of the quality of a scientific bibliography. Moreover, students read scientific literature (eg articles from international journals).				
Aims	Given the learning outcomes of the "Master in Computer Science and Engineering" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes:  • INFO1.1-3 • INFO3.1, INFO3.2 • INFO5.3-4, INFO5.6 • INFO6.1, 6.4  Given the learning outcomes of the "Master [120] in Computer Science" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes:  • SINF1.M1 • SINF3.1, SINF3.2 1 SINF5.3-4, SINF5.6 • SINF6.1, SINF6.3, SINF6.4  Student completing successfully this course will be able to  • establish the state of the art based on the scientific literature, when confronted with a research problem beyond his current knowledge,  • prepare a comprehensive report including a scientific bibliography and explaining its relevance to a theme,  • synthesize a scientific article by explaining the context, challenges, innovative results, potential applications as well as tracks for further work in the field,  • communicate orally the results of a research to a public of computer scientists not experts in the field,  • interact with a person who presents research results showing a critical and constructive look over the work presented.				
Evaluation methods	Writing the bibliography accounts for 30% of the points in the final grade. Students review also two bibliographies written by other participants. Reviews are individual and account for 20% of the points in the final grade.  Bibliography and reviews can not be redone.  The active participation of students to group activities and to the seminar accounts for 20% of the points in the final grade.  The oral exam, which is the individual presentation of a scientific paper, accounts for 30% of the final grade.				
Teaching methods	This seminar consists of:  • Writing a bibliography • Individual presentation of a scientific article				
Inline resources	http://moodleucl.uclouvain.be/course/view.php?id=7996				
Other infos	The research seminar should be followed the same year as the end of study work because it is a methodological support to its realization.  It is not necessary to select the option corresponding to the seminar in order to participate.
