Theories in Information and Communication

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

5 credits	30.0 h + 20.0 h	Q2

Teacher(s)	Robotham Andrew (compensates Grevisse Benoît) ;		
Language :	French		
Place of the course	Louvain-la-Neuve		
Aims	 Have a base of theoretical skills in the field of the communication. In this way, it joins a logic of specialization following the course of Communication and Information I. Understand the concepts and the methods of the main research currents. Beyond the simple identification of the diverse theories of the communicational approach, the student will be able to place them among the analysis currents of the contemporary world. The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit". 		
Faculty or entity in charge	ESPO
