

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

5 credits	30.0 h	Q1
-----------	--------	----

Teacher(s)	Bocquier Philippe ;Schnor Christine ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	Each year, this course is structured around the study of eight to ten topics relating to major issues in contemporary Sociodemographics. These issues relate as much to socio-demographic developments and progress in health, as to their causes and economic, social, political and environmental consequences.
Aims	<p>1 This course aims to give 2nd and 3rd year students on any Bachelor's degree programme a broad overview of the major socio-demographic challenges, which various Northern and Southern regions of the world will face in the 21st century. It also aims to teach students to take a certain critical distance from various commonly held prejudices and presuppositions.</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Assessment: 85% exam, 10% exercise (compulsory work to be done before November 28th), 5% participation in the session of December 6th.</p>
