

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

5 credits

15.0 h

Q1 and Q2

Teacher(s)	Panin Amma ;
Language :	English
Place of the course	Louvain-la-Neuve
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. The structure of evaluations may change according to the health situation, but will likely consist of oral presentations and a written project.
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Seminar-based discussions of frontier research. Papers to be discussed will be assigned ahead of time.
Content	Experimental Economics Experiments are increasingly ubiquitous in economics — in the lab, in the field, on the internet, in government. This seminar will focus on the design of experiments and the interpretation of the data that they produce. The discussions will pay particular attention to the role experiments play in advancing theory, and the different econometric framing that may be desirable when researchers design their own data generating processes.
Inline resources	Slides, homeworks, exercises, compulsory readings will be available on the course webpage on Moodle UCL (http://moodleucl.uclouvain.be/).
Faculty or entity in charge	ECON
