

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

5 credits

15.0 h

Q1

This biannual learning unit is not being organized in 2020-2021 !

Teacher(s)	François Aurore ;Van Eeckenrode Marie ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	The first part of the course will be devoted to fundamental notions of archivistics and problems with the conservation of documents (archive storage, material restoration, etc.). In-service visits to archives, meetings with archivists, and a series of lectures will round off and detail particular points of instruction.
Aims	<p>Archivistics is a scientific discipline dealing with conservation, management, and proper use of archives, in whatever medium or format.</p> <p>1 Instruction will concern first terminology current in the field, and general principles, including technical and legal problems with preservation of data (problems inherent in new technologies of information and communication), questions of selection and elimination, of description and classification of catalogued items for permanent conservation, creation of research instruments (catalogues, inventories, guides, etc.), and the communication of this heritage and demonstration of its value to the larger society.</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Written exam, possibly supplemented by work (specified at the beginning of the year), depending on possible collaborations with partner archives services;
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Theoretical presentations complemented, as much as possible, by an openness to fieldwork (service visits, presentations by practitioners, etc.) and a problematized approach to current archival challenges (resolution of practical cases)
Content	The course will cover the following content: <ul style="list-style-type: none"> • the archivist, his missions, his interventions at each stage of the life cycle of the documents; • the collection, selection and disposal of archives; • classification and indexing; • the enhancement of collections
