| Teacher(s)                  | Engel Vincent ;   |
| Language :                  | French  |
| Place of the course         | Louvain-la-Neuve  |
| Learning outcomes           |   |
| Content                     | <p>By mastering the fundamental principles of logic and argument, students will develop a critical spirit and the rhetorical tools needed to construct a correctly articulated and convincing scientific argument.</p> <p>To illustrate these concepts, we will use numerous examples taken from literature but also from the press, advertising, political speeches, etc.</p> <p>In the practical work sessions or at home, students will produce a minimum of three pieces of written work. Special attention will be paid to quotations and references in this work, so as to combat plagiarism effectively.</p> |
