Ateliers de recherche: synthèse et articulation thématiques-Ecoarchitectures

8.00 credits	90.0 h	Q2
--------------	--------	----

Teacher(s)	Meyer Sandrine ;Thielemans Benoit ;Van Moeseke Geoffrey ;					
Language :	French					
Place of the course	Bruxelles Saint-Gilles					
Prerequisites	The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.					
Main themes	This teaching unit, entitled Research Workshops IN and ON Architecture, is taught by joint lecturers. It enables students first to develop a research project linked to an architectural project based on an individual topic and second to place this project, in a critical way, in relation to the shared issue and in relation to similar projects of other students. All the students work together in the research workshop; this encourages group competitiveness and autonomy. These research workshops are linked to the Final Dissertation which is done entirely independently.					
Learning outcomes	At the end of this learning unit, the student is able to :					
	Design a project					
	 Express and prioritise the aims of the projects so as to be able to make choices Analyse, consider and invent artistic practices through drawings and models Adopt approaches which are methodical, creative, metaphorical, perceptive, collaborative etc. 					
	Test an artistic approach					
	 To capture the 'spirit of the time' and identify the means which will enable it to be revealed To imagine drivers which can transform the perception of what is real 					
	Place the action					
	 Identify and analyse the paradigms on which the study is based according to various given methods and starting from various points of view 					
	Make use of other subjects					
	Interpret and synthesise the knowledge of other subjects					
	1 Use the technical dimension					
	Be able to apply the various basic technical principles in producing a work of architecture					
	Express an architectural procedure					
	Test and use relevant means of communication in relation to the intended audience and the target objectives					
	Adopt a professional attitude					
	 Act as an independent player able to understand the framework of his/her mission, and the responsibilities towards third parties as well as his/her legal obligations 					
	Make committed choices					
	 Develop awareness of the political meaning of the work of an architect and his/her responsibility towards society Make links between different methodological and epistemological perspectives Understand the merits of an idea which can lead to the objectives to be achieved by the project; follow through with determination, even by means of a modest intervention, the implementation of this idea and the achievement of these objectives
