Bibliography	<ul style="list-style-type: none"> • Avanzi, Mathieu, Béguelin, Marie-José, Diémoz, Federica (éds) (2016) <i>Corpus de français parlé et français parlé des corpus (=Corpus 15)</i>. • Baude, Olivier (sous la dir. de). (2006). <i>Corpus oraux, guide des bonnes pratiques</i>. Paris : éditions du CNRS. • Zufferey, Sandrine (2020). <i>Introduction à la linguistique de corpus</i>. Londres : ISTE éditions
Other infos	Generative artificial intelligence (AI) must be used responsibly and in accordance with academic and scientific integrity practices. Given that scientific integrity requires sources to be cited, the use of generative AI must be explicitly stated: the student is required to state (for example in a footnote) whether they used a generative AI (and which one) in writing their answers/essay, specifying in what capacity the generative AI was used. The student remains responsible for the content of their work, regardless of the sources/references used.

Faculty or entity in charge	ELAL
