Computer networks: configuration and management

5.00 credits 30.0 h + 30.0 h Q1

Teacher(s)	Bonaventure Olivier ;					
Language :	English > French-friendly					
Place of the course	Louvain-la-Neuve					
Main themes	network architectures and the role of virtual networks quality of service provision of multicast network reliability principles of network management					
Learning outcomes	At the end of this learning unit, the student is able to: Given the learning outcomes of the "Master in Computer Science and Engineering" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes: • INFO1.1-3 • INFO2.2-4 • INFO5.2, INFO5.4-5 • INFO6.1, INFO6.3, INFO6.4 Given the learning outcomes of the "Master [120] in Computer Science" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes: 1 • SINF1.M1 • SINF2.2-4 • SINF5.2, SINF5.4-5 • SINF6.1, SINF6.3, SINF6.4 Students completing successfully this course will be able to • design, deploy and manage data networks • explain the threats against networks and the defense strategies • deploy mechanisms to ensure quality of service, security and reliability					
Evaluation methods	Oral exam (60%) Group project (25%) Peer review (10%) Course participation (5%) Projects cannot be repeated in the second session. The same applies to peer reviews and course participation. The use of generative AI software such as chatGPT, GitHub copilot, is forbidden for assistance in writing the reports and source code requested in this course. In addition, external sources of information must be systematically cited in compliance with bibliographic referencing standards. Translated with www.DeepL.com/Translator (free version)					
Teaching methods	Inverted clasroom Network design and management project in small groups					
Content	BGP Traffic control in IP networks IP Mutticast MultiProtocol Label Switching BGP/MPLS VPNs Evolution of the Internet architecture					
Inline resources	https://moodle.uclouvain.be/course/view.php?id=2046					
Bibliography	Slides available on moodle reference articles available on moodle
