

Teacher(s)	Desmet Carlos ;
Language :	English
Place of the course	Louvain-la-Neuve
Main themes	Business Ethics and Compliance management are key elements that define modern business competitiveness, and companies are actively seeking professionals and future business leaders to join their Ethics and Compliance functions. This course aims to provide future leaders and professionals with a solid understanding of the complex dilemmas and the managerial tools to allow them to operate and implement effective business ethics and compliance programs in their company or join a team in that fast growing segment of activities.
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p><i>During their programme, students of the LSM Master's in management or Master's in Business engineering will have developed the following capabilities :</i></p> <p>CORPORATE CITIZENSHIP</p> <ul style="list-style-type: none"> Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development. <p>A SCIENTIFIC AND SYSTEMATIC APPROACH</p> <ul style="list-style-type: none"> Consider problems using a systemic and holistic approach : recognize the different aspects of the situation and their interactions in a dynamic process. <p>1 WORK EFFECTIVELY IN AN INTERNATIONAL AND MULTICULTURAL ENVIRONMENT</p> <ul style="list-style-type: none"> Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions. <p>PROJECT MANAGEMENT</p> <ul style="list-style-type: none"> Analyse a project within its environment and define the expected outcomes : identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators. Make decisions and take responsibility for them in an uncertain world : take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.
Evaluation methods	<p>Continuous evaluation</p> <p>The continuous evaluation part involves a written report, an oral presentation and a workshop discussion, accounting for 50% of the total grade. This is a collective work, where students are randomly allocated to small teams.</p> <p>Examination session</p> <p>The examination part consists in an individual, closed-book written exam (two hours), accounting for 50% of the total grade.</p> <p>Second session</p> <p>Students with a second session will take a written exam under the same conditions as in the first examination session, except that it will account for 100% of their final grade.</p>
Teaching methods	<ul style="list-style-type: none"> General and interactive courses combining theory and practical managerial experience; Review of the leading theories and practices in the field. Focus on a couple of selected themes within the subject (e.g. Competition laws, Human Rights, Anticorruption, Export controls); Challenges on practical implementation with leading professionals in global organizations A selection of case studies will be used to allow participants to think about complex business issues and decisions. A team project is required consisting of a Third party ethical assessment
Content	<ul style="list-style-type: none"> Business ethics theories Governance models Risk Management

	<ul style="list-style-type: none"> • Building blocks of successful compliance programs • Leading internal investigations • Embedding ethics and compliance in the audit program.
