All parts of the tests are compulsory. If the student is absent (without official proof) for one of the parts of the evaluation (except formative tests), this will imply an "absence" mark for the entire evaluation. A student who has not taken part of this assessment will therefore be prohibited from enrolling in the other parts of the assessment. If the student does not pass the January test or hand in a medical certificate, he / she must take the exam again in the August session. Attendance at the course (face-to-face and / or distance learning) is compulsory. If the teacher considers it useful, she could suggest that the jury oppose registration for the course exam for a student who has not regularly followed the learning activities (RGEE - art . 72) During the August session, the student is required to complete an assignment and present an oral exam, the criteria of which will be defined by the teacher. Permanent assessment marks will only be taken into account if this is to the benefit of the student. If the health situation (or other crisis situation) does not allow a permanent assessment (for example following a switch to distance education), then: The activities and tasks would be adapted to allow work at home and the delivery of it remotely. Orals would take place on Teams. The weighting of these different parts could therefore be slightly modified.</b></p>
