15.0 h + 15.0 h

Q1

Teacher(s)	Auquier Francis ;
Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	<p>Continuous formative assessment during the term. Evaluation during the January session (written examination). In case of a failure or an absence at the January examination, the exam will have to be taken during the August/ September session (written examination). The assessment may require, authorise or prohibit the use of machine translation and artificial intelligence depending on the exercise to be undertaken. In all cases, the use of machine translation and artificial intelligence will be subject to the conditions specified in the assessment instructions.</p>
Teaching methods	In-class sessions in computer lab.
Content	<p>This course sets out to help students develop advanced skills and expertise in international and European affairs-related translation from various perspectives (diplomacy, geopolitics, geostrategy, etc.) and to teach them the specifics of the specialism, including how to adapt their translation to the type of text, the client's profile and the purpose intended.</p> <p>The course will attempt to simulate the execution conditions of a real translation project. Students will have to tackle the various steps of a German-to-French translation project with professionalism, from order to delivery (i.e. administrative tasks, documentary and terminological research, translation and revision). Students will be asked to translate one or several texts dealing with international politics and geostrategy, to meet specific deadlines and to rely on CAT tools when appropriate, according to what will be specified on the Moodle page of the course or to the instructions given during the course.</p>
