3.00 credits

22.5 h + 15.0 h

Q1 and Q2

Teacher(s)	Bielders Charles ;Vanclooster Marnik (coordinator) ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	Seminar 1 ECTS: Seminars given by professionals from the soil and water sector. Both experts from the public and private sector present seminars. 1 ECTS: Seminars given by students on a subject related to soil and water management, encompassing the environmental, economic , social and legal aspects of soil and/or water management. Suggested topics : European legislation on integrated water management. Integrated water management in Europe and in developing countries. Soil remediation. Framework directives on water and soil protection . Managing multi-purpose dams. Water and public health in the tropics. Etc ...
Learning outcomes	
Evaluation methods	Professional seminar. SWOT sheet: For each expert seminar, the student makes a SWOT analysis (strengths, weaknesses, opportunities and threats)of a solution presented by the expert. Student Seminar. Multi-criteria evaluation. Scientific, technical and formal quality of the presentation, quality of responses. Evaluation by teachers and fellow students
Teaching methods	Presentations by professionals: A specific soil and/or water engineering or management problem is presented by the professional expert. Presentations by students in student group: A specific soil and/or water engineering or management problem is presented, based on a literature review. Due to lecture room capacity limitations related to the COVID crisis, some part of the course can be organised at distance.
Content	The overall objective of the course is <ul style="list-style-type: none"> • to expose students to current issues in the field of water and soil resources and environmental technologies via experts in the field and student seminars; • to provide an overview of the professions related to these fields so that students can better project themselves in their future careers. <p>The objective of the course will be achieved on the one hand by seminars given by experts in the field (researchers, actors in the public or private sector), by seminars prepared by the students themselves and by some field trips in Belgium or abroad.</p> <p>During the first 8 weeks, external professionals present seminars during 2 hours. Then, students present topical seminars. Topical seminars are presented in groups of 2 to 4 persons.</p>
Inline resources	<ul style="list-style-type: none"> • A course vademecum, describing the details of the programme, is available on Moodle. • For the seminar, a copy of the slides is available on Moodle.
Other infos	This course can be given in English.
Faculty or entity in charge	AGRO
