Content	For this course, we will use the textbook Aula internacional Plus 3. Curso de español B1 . Editorial Difusión. The course is based on communication. Notions of language are not acquired through the learning of vocabulary lists or an exclusively structural approach to grammar, but integrated into meaningful contexts and grouped according to functional content.

	The didactic materials include very detailed grammatical referencing and drilling exercises common to the structural approach, but the typology of the exercises and the basic materials are very heterogenous : songs, games, debates, newspaper articles, advertisements, short comedy sketches, films, etc.
