

The version you're consulting is not final. This course description may change. The final version will be published on 1st June.

2.00 credits

25.0 h

Q1 and Q2

This learning unit is not open to incoming exchange students!

Language :	Spanish
Place of the course	Louvain-la-Neuve
Prerequisites	Having obtained a C1 level in Spanish; Having been accepted in the programme where the traineeship is proposed; Following or having followed LROM2945.
Main themes	These 25 hours correspond to the Spanish language teaching internships that the students have in their programme (5 hours of observation internships and 20 hours of teaching internships). These internships are to be done in upper secondary sections of schools in the FWB.
Learning outcomes	At the end of this learning unit, the student is able to : can demonstrate, through their internship practice, their integrated mastery of all the AAs described on https://uclouvain.be/en-prog-2020-roge2a-competences_et_acquis
Evaluation methods	Observation report (validated by the person in charge of the course). Placement reports: Each practice period is assessed continuously in the light of the remarks and daily advice of the supervisor. When it has finished, it is formally assessed. The supervisor comments his/her evaluation to the student during a feedback session. The duo practice period is evaluated for 25% of the final grade, the solo practice period for 50% of the final grade, and the final assessment as a public lesson for 25% of the final grade. A fail for the public lesson can imply a fail for the entire course. The observation report does not receive a grade but not submitting this report implies losing 2 points. If the student uses generative artificial intelligence tools, this has to be done in a responsible way and in compliance with good practice standards of academic and scientific integrity. Since the scientific integrity implies that one cites one's sources, the use of AI always has to be mentioned. The use of AI for tasks where this has been explicitly forbidden will be considered a case of fraud.
Teaching methods	Teaching internship to be carried out by the students
Content	<ul style="list-style-type: none"> • Observation of classroom practices in a school context • Intervention in a school context, in partnership with various actors • Teaching in authentic and varied situations • Reflexive analysis of teaching practices
Inline resources	All course guidelines are available on the Moodle platform.
Faculty or entity in charge	ELAL
