

The version you're consulting is not final. This course description may change. The final version will be published on 1st June.

11.00 credits

0 h + 220.0 h

**This learning unit is not open to incoming exchange students!**

Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	Written report - lab diary
Teaching methods	Personal work. Participation of at least 220 hours in research activities within the host research team. Students will keep a laboratory notebook and present the results of their work in the form of a research report at the end of the 2nd part/year of the Master's degree. These results will be presented orally as part of the LMOTR2246 course.
Content	Second part of the research project. The student will participate in research activities within a research team and is in agreement with the(s) supervisor(s).
Other infos	Supervision : supervisor/promotor of the student's project. This learning activity is a continuation of the course "Research project in motor sciences (part 1)" of the first year of the master (LMOTR2147).
Faculty or entity in charge	FSM
