Analysis and Intervention in socio-educational organization

4.00 credits	30.0 h	Q1

Teacher(s)	Nils Frédéric ;
Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	Students will be assessed in two ways. They will have to produce video tutorials individually on parts of the subject. The quality of their production will be evaluated and will be worth half the points. An oral exam on the entire subject will complete the grade. Both parts of this evaluation must be passed for the final grade to be higher than 10/20.
Teaching methods	The course will follow the principle of the flipped classroom where students will have to make video tutorials of the material, which will then be discussed in class.
Content	Content The course consists of an application of the psychosociology of organizations and the theories of organizations to the case of socio-educational organizations: 1. Elements of psychosociology of organizations 2. Analysis of socio-educational organizations 3. Interventions in organizations 4. Interventions in socio-educational organizations
Inline resources	A reading portfolio will be given to students for preparation of the video tutorials. These video tutorials will be made available to all students
