Place of the course	Louvain-la-Neuve
Main themes	A group of New Testament texts, selected for their methodological or theological interest, will be studied; - particular attention will be paid to the method, in order to introduce the students to critical research in biblical exegesis or theology.
Learning outcomes	At the end of this learning unit, the student is able to : offer a scientifically accurate comment of a New Testament text, situating its particular contribution in the general topic of the course.
Content	Along with narrative criticism, Wirkungsgeschichte criticism is a peculiarly popular method within biblical criticism. Both originated in hermeneutics and both aim to study the way the biblical text can be interpreted: they are therefore complementary. This course provides an introduction for Wirkungsgeschichte. The first part is devoted to the theoretical foundations of the method, the second one to the methodological framework and the third part to examples of Wirkungsgeschichte. Every student can then be able to exercise with case studies.
