Language :	Dutch
Place of the course	Bruxelles Saint-Louis
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Learning outcomes	<p><b>At the end of this learning unit, the student is able to :</b></p> <p>The minimum level of Dutch to be reached at the end of the year is B2/ C1 as defined by the Common European Framework of Reference for Languages.</p> <p>The courses and home work will prepare the students to master the language in terms of vocabulary and grammatical structures.</p> <p>At the end of the course, the student should be able to grasp the general meaning of authentic texts and make a structured synthesis of them, while being able to explain passages dealing with important data in Dutch.</p> <p>An exemption test (and not a level test) is organized at the beginning of the first term, at a precise moment (see Valves) at the end of September, to allow the strongest students to be exempted from the course. Please note that an overall mark of 16/20 must be obtained in order to be exempted from the course and that it is not possible to present this test at another time.</p>
Evaluation methods	<p>The assessment covers all material studied in class and includes:</p> <ul style="list-style-type: none"> <li>• A written examination, to be held out-of-session during the mid-week of December and worth 50% of the final weighting.                             <ul style="list-style-type: none"> <li>• The examination will cover the material taught in class and evaluates the written skills of the student.</li> </ul> </li> <li>• An oral examination which also takes place out-of-session (dates in December to be defined) and worth 50% of the final weighting.                             <ul style="list-style-type: none"> <li>• This examination will evaluate the oral skills based on the reading of the novel.</li> </ul> </li> </ul> <p>In case the student has not obtained the average (for the 2 parts) of 10/20 for his final quote, he/she is obliged to retake in August the part(s) for which he/she has not obtained 10/20.</p> <p>Students who get 10/20 or higher will keep their result. The students will therefore not be able to re-sit their oral/ written exam for which they have obtained a mark of 10/20 or higher.</p> <p>Please note that if a student has to retake the Q2 exam in August, the same guidelines as for December are applicable.</p> <p>If a student is <u>absent</u> from any part of the assessment, he or she will receive a final mark of 0A. If the absence is justified by a medical certificate sent to the faculty administration within 24 hours, a final mark of 0M will be given. No exceptions will be granted.</p> <p>N.B. A <u>dispensatory exam</u> is organized in person via the ELAO platform in September; students obtaining a mark equal to or higher than 16/20 will be excused from the course for the year. This result will count as final mark at the end of the year. Details of how to register for the exemption test will be published on the valves and the website. ('Back to School Week' page).</p> <p><b>Use of online tools :</b></p> <p>If the student chooses to use one or more online tools (translators, artificial intelligence, spelling and grammar checking tools), he or she is required to systematically indicate all the parts that have been subject to this use, for example by indicating it in footnotes. The student must specify the purpose(s) for which the tool was used (information, writing, correction). They should also mention the name of the tool (ChatGPT, DeepL, Bing, Bard, Chatsonic, etc.) and the date of consultation. This information will be systematically cited according to the bibliographic references stipulated by the teachers. However, students remain responsible for the content of their work, regardless of the sources used.</p> <p>In order to ensure that the student's written work is personal, criteria such as originality, critical spirit, creativity and illustration with examples (e.g. from his/her own experience) will be taken into account.</p> <p>Any behavior on the part of the student which prevents or attempts to prevent, in whole or in part, the correct assessment of his/her knowledge, skills and/or competences will be considered an irregularity and may result in sanctions.</p>
