

3.00 credits

Q1

Language :	French
Place of the course	Bruxelles Saint-Gilles
Main themes	<p><u>Main Themes</u></p> <p>In a context where the evolution of conceptual frameworks in multidisciplinary team projects is a societal imperative, and where student architects must engage with new knowledge, this course immerses students in project processes involving specific field actors.</p> <p>The activity consists of: an internship in an authentic socio-professional environment; production of an analytical and reflective 'Portfolio' documenting the learning experience.</p>
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <ul style="list-style-type: none"> • Participate actively in a new methodological process of analysis and/or experimentation by identifying and exploring relevant theoretical knowledge, • Apply and test theoretical models or data derived from established benchmarks through simulations and/or 'experimental laboratories'. • Analyse and critique a methodological process to identify its organizational components (e.g., planning, time management, prioritization of tasks, etc.). • Adopt an assertive attitude in a professional environment by asking relevant questions, expressing your point of view, and identifying your learning needs. <p><u>General Learning Outcomes</u></p> <p>In line with the program's learning outcomes (LOs), this course contributes to the development and acquisition of the following LOs:</p> <ul style="list-style-type: none"> • LO1.1 Prioritize the parameters and issues of a given situation. • LO1.2 Justify the intentions and choices of an architectural project at different intervention scales. • LO4.1 Understand and mobilise the concepts and methods of scientific disciplines. • LO4.3 Understand and integrate the content of other artistic or scientific disciplines to enrich the architectural project. • LO5.1 Act in full awareness of one's responsibilities. • LO5.2 Communicate attentively, inclusively, and effectively with the various stakeholders of the architectural project.
Faculty or entity in charge	LOCI
