

Teacher(s)	Javaux Mathieu ;
Language :	English > French-friendly
Place of the course	Louvain-la-Neuve
Prerequisites	General Hydrology (LBIR1348)
Main themes	- Open-channel hydraulics - stochastic modeling fro hydrology - Model optimization and parameterization
Learning outcomes	At the end of this learning unit, the student is able to : a. Contribution to 'Learning Outcomes' program M2.2 ; M2.3 ; M6.5 ; M6.8 - b . Specific formulation for this activity LO program (maximum 10) At the end of the course and of the practicals, the students will be able: - to characterize the type of flow in channels/rivers. 1 - to understand and be able to apply the theory on gradually varying flow and rapid varying flow; - to measure the river discharge with different techniques - to use modelling approaches to simulate river discharge and design methods to control flood risks. - to estimate hydrological model parameters by different methods - to understand stochastic hydrology concepts - to use stochastic models to calibrate and simulate river discharge
Evaluation methods	• 50% on practical reports • 50% on oral evaluation of theory
Teaching methods	- The lectures can be given in English, but illustrated by slights in French. A reference textbook in French supports the lectures. - Field practical work for river discharge measurments - Practical work in the computer room allow students to use advanced methods of hydrological modeling - The practical work and the reports are a executed in teams
Content	<u>Theory :</u> - Open channel hydraulics (8 hours) - Stochastic modeling in hydrology (8 hours) - Parameter estimation (4 hours) <u>Practicals:</u> - Flow discharge measurements in situ (3 hours) - Modeling exercises in computer room : • HEC-RAS (6 hours) • Stochastic modeling (6 hours)
Inline resources	Moodle
Bibliography	Ouvrage de référence : 'manuel technique d'HEC-RAS. Syllabus d'hydraulique- livre Hydrologie fréquentielle - une science prédictive (Meylan et al) Transparents des cours sur Moodle
Other infos	This course can be given in English.
Faculty or entity in charge	AGRO
