| Content                     | The student will be able to understand the various projects, crises and relaunches in the history of European integration, linked to political, economic, military or institutional questions. The course shall focus on converging or diverging elements, taken from different episodes of the history of European integration, asking how these crises have modified the paths, the plans, and the visions sketched by the so-called "founding fathers". Finally, the course will show how history can shed a new light on current debates. |
