

3.00 credits

15.0 h + 15.0 h

Q1

Teacher(s)	Hermesse Julie ;
Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	<p>The seminar will be assessed on an ongoing basis and will also be graded. It will conclude with a group project presented orally during the session.</p> <p>The use of artificial intelligence in the assessment tests for this course is governed by the rules set out in the faculty memorandum on the subject, which is available on the faculty intranet in the information for students section.</p>
Teaching methods	<p>The course focuses on practical exercises, with field observations and practical sessions on soft skills such as bibliography, criticism, research questions and scientific writing. Teaching methods are complemented by assistant support and readings.</p>
Content	<p>The seminar is given in the form :</p> <p>Participatory presentations involving an active approach on the part of the student (presentation of a research approach, illustration using concrete examples, proposals and use of appropriate methodological and theoretical aids).</p> <p>The course takes a conceptual and pragmatic approach to the following themes: entering a research field, observing in the field, constructing a research question, bibliographical research, writing up observations and initial analyses. A practical fieldwork component is central to this course.</p> <p>Translated with DeepL.com (free version)</p>
Inline resources	Resources will be on Moodle.
Bibliography	Pour les deux parties du cours, les supports de cours (notes écrites et PowerPoint) sont fournis sur Moodle.
Other infos	<p>For the disciplinary part.</p> <p>Evaluation: continuous evaluation and evaluation of personal work</p>
Faculty or entity in charge	ESPO
