15.0 h

Q1 and Q2

This learning unit is not open to incoming exchange students!

Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	/
Main themes	This seminar is part of the scientific supervision carried out by the dissertation supervisor and is aimed at ensuring student autonomy in the writing of their dissertation. It allows students to evaluate their progress in their research and enables the supervisor to make comments and offer advice.
Learning outcomes	At the end of this learning unit, the student is able to : - Define a relevant research project in the framework of the masters dissertation. - Master the principal methods of collecting and treating data. - Correctly utilize epistemological, methodological and editorial propositions in the framework of the masters dissertation.
Evaluation methods	The student's work, active participation in the seminar, and oral presentation will be assessed on a scale of 20 points. Please note that student attendance is mandatory throughout the Master's program, including during the first year of the Master's 120 program.
Teaching methods	The seminar is structured around different formats: specific methodology courses, database exercises, oral presentations by students or doctoral candidates, and open discussions among participants on a given topic, which may or may not be predetermined.
Content	The seminar consists of regular meetings (once a month from October to December and from February to May) between supervisors and students. These meetings allow students to refine the topic of their thesis, the research question, the bibliography, the work plan, etc. Some of these meetings focus on heuristics, methodology and scientific research, as well as on writing a scientific paper or thesis. During the seminar sessions, students are required to give an oral presentation of their thesis project at least once during their master's program. Students also have the opportunity to do an internship as part of the seminar, particularly an internship related to their thesis.
Inline resources	Various resources (methodology, databases, list of bibliographic references, etc.) are provided on the Moodle site.
Bibliography	Various resources (methodology, databases, list of bibliographic references, etc.) are provided on the Moodle site.
Other infos	Various resources (methodology, databases, list of bibliographic references, etc.) are provided on the Moodle site.
Faculty or entity in charge	EHAC
