Q1

Teacher(s)	Lorant Vincent ;
Language :	French
Place of the course	Bruxelles Woluwe
Learning outcomes	
Evaluation methods	<p>The final assessment consists of a one-hour electronic exam conducted through the Wooflash platform, accessible on a personal smartphone or tablet. Students must come with a fully charged device and log in using their UCLouvain credentials. The platform is also used throughout the course for formative purposes.</p> <p>Starting in 2025, students may take part in an optional activity consisting of a classroom presentation on an aspect of a health system other than that of Belgium. When deemed satisfactory by the course holder, this presentation grants a two-point "joker," which can compensate for a partial failure and allows the final grade to be calculated out of 18 instead of 20. Registration takes place at the end of the first session, on a first-come, first-served basis, and is limited to sixteen students, on moodle.</p>
Teaching methods	<p>The first part of the course is devoted to a theoretical presentation. The lectures are supported by figures and tables to familiarize students with the theory-data links. Students are invited to practice using online databases and wooclap exercises. Students are thus invited to bring a laptop, connected to the UCLouvain wifi.</p>
Content	<p>Governance of the health system                  Social protection                  Health care financing                  Provision and expenditures                  Organization of care: coordination and decentralization                  Health information system                  Human resources                  Health and politics                  Health system performance</p>

Bibliography	<p>Ces ouvrages servent de références générales pour les étudiants désireux d'approfondir le sujet. La lecture 2 est une bonne base de départ. La référence 9 est une lecture obligatoire. Le chapitre 14 de la lecture 5 permet aux personnes non-belges de mieux comprendre le système politique belge. La lecture 3 illustre le fonctionnement de la décision politique en Belgique.</p> <ol style="list-style-type: none"> <li>1. Arcq, E and Blaise, P (1998).
