2026

Laboratory internship (Part 2)

20.00 credits		Q1

Language :	French > English-friendly
Place of the course	Bruxelles Woluwe
Prerequisites	*The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.*
Learning outcomes	
Evaluation methods	The skills acquired in the experimental methodologies and approaches, as well as in the analysis and interpretation of experimental data, are assessed on the basis of a scientific report written by the student and an oral defense.
Teaching methods	The student will be followed by his internship promoter, for the accomplishment of the experimental project and the drafting of the final scientific report.
Content	In this activity, the student is integrated for several months in a research laboratory in biomedical sciences. He continues the original research project started during the 1st part laboratory internship (WSBIM2197).
Other infos	Access to this activity is conditioned by prior success of the laboratory internship part 1 (WSBIM2197).
Faculty or entity in charge	SBIM
