Introduction

Introduction

Teaching profile

Learning outcomes

The minor in economics (opening) takes students through basic training in the main areas of economics:

- political economics,
- macroeconomics,
- microeconomics,
- growth theory,...

On successful completion of this programme, each student is able to :

1. Démontrer une compréhension d'un socle de connaissances en sciences économiques.
2. Démontrer une connaissance et une compréhension des outils et méthodes de base des sciences économiques.
3. Découvrir et saisir la rigueur exigée et faire preuve de cette intégration.
4. Faire preuve d'une capacité de questionnement à partir du raisonnement spécifique aux sciences économiques.
5. Percevoir les spécificités des sciences économiques et construire une réflexion complémentaire à celle de la discipline de sa majeure afin d'enrichir l'étude d'une problématique.

COURSE PREREQUISITES

A document entitled (nb: [not available](#) for this programme loeco100i) specifies the activities (course units - CU) with one or more prerequisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"
