⊗ Module 1 : Couples, familles, sexualités

Les études de genre, à travers le regard de plusieurs disciplines, interrogent les conceptions à propos du couple, de la famille et de la sexualité.

L'apport des études de genre permet souvent de réfléchir les multiples formes que peuvent prendre ces différentes sphères, mais aussi d'interroger et de déconstruire les approches conventionnelles et par trop monolithiques d'appréhender le(s) couple(s), la(les) famille(s), la(les) sexualité(s).

⊗ LSEXM2713	Sociological approaches to family and couple	Jacques Marquet	30h	5 Credits	1q	x	x

⊗ Module 2 : Cultures et représentations

Par le biais de différentes disciplines et en particulier l'histoire, la littérature, les média et la communication, l'anthropologie, la sociologie, la théologie, la philosophie, etc.). Les études de genre renvoient immanquablement à toute la question culturelle. Les cours repris dans cette option permettent d'explorer sous un regard neuf, les conceptions en matière de genre et plus spécifiquement les représentations et les discours associés à ce dernier.

⊗ LROM2720	Questions of Literary History	Damien Zanone	22.5h	5 Credits	1q	x	x
⊗ LCLIG2160	Sociolinguistics	Philippe Hambye	15h	5 Credits	1q	x	x

⊗ LTHEO2430	Religions and gender	Walter Lesch	30h	4 Credits	1q	x	x

⊗ Module 3 : Analyse des discriminations et promotion de l'égalité

Les études de genre permettent de révéler et comprendre les inégalités liées à la question du genre (discrimination, ségrégation, domination, etc.).

Les cours de cette option présentent les cadres et concepts d'identification et d'analyse des inégalités, ainsi que les stratégies de lutte contre les discriminations et de promotion de l'égalité.

Course prerequisites

A document entitled (nb: not available for this programme corp2m) specifies the activities (course units - CU) with one or more prerequisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](https://uclouvain.be/fr/decouvrir/rgee.html) (https://uclouvain.be/fr/decouvrir/rgee.html).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "*In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?*"
