Course prerequisites

A document entitled [en-prerequis-2019-fehc2m.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document *"In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"*

The document is available by clicking [this link](#) after being authenticated with your UCLouvain account.

Teaching method

Ce programme spécifiquement conçu pour des personnes qui travaillent, alterne exposés théoriques et études de cas afin de permettre la compréhension concrète des problématiques de gestion.

Le programme attire un public de formation et d'horizons professionnels très variés. Les **confrontations de pratiques** et de points de vue divers, tant entre étudiants et professeurs, qu'entre étudiants entre eux, offrent un enrichissement de la perspective des étudiants sur les différents domaines de la gestion.

Les étudiants sont invités, dans différents **travaux individuels ou de groupe**, à porter un regard réflexif sur leur pratique professionnelle ou à étudier et résoudre des problèmes de gestion en lien avec leur domaine professionnel.

Ce programme bénéficie d'un corps professoral principalement composé de praticiens expérimentés et privilégie donc une approche pédagogique basée sur les études de cas, les séminaires et les travaux pratiques.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Les méthodes d'évaluation sont diverses : réalisation de travaux individuels et/ou de groupe , passage d'examens écrits ou oraux, réalisation d'un mémoire.
