## MEGE2MC - Introduction

### Introduction

---

## MEGE2MC - Teaching profile

### Learning outcomes

The complementary master's programme of General Medecine aims to further basic knowledge acquired during the PhD programmes for the management and accompaniment of health problems encountered on the first level of health care, and by means of supervised apprenticeship periods, study summaries, seminars and supervised pieces of work. It prepares the candidate to obtain the professional title of General Practitioner.

### Programme structure

The total length of the specific training programme in General Medecine cannot be for less than 3 years (Ministerial Decree of 1/10/2002, European Directive 2001/19/CE). The length of the training programme is at least two years after having acquired the degree of Doctor in Medecine. The first year of the DES may be validated by following the 4th study year of the PhD programme in Medecine, with the "General Medecine" orientation.

Besides theoretical and practical sessions, it includes full-time training periods carried out with general practitioners or in hospital services, approved by the Ministry for Public Health and recognised by the Faculty of Medecine. The student degree holders who have successfully followed the "General Medicine Orientation" in the 4th year of studies of their PhD in medecine, obtain the credit of 6 months apprenticeship in an approved hospital service and 6 months work experience with a recognised General Practitioner or in a recognised centre for primary care.

The graduate students who have not followed the "General Medecine" orientation in the 4th year of PhD studies in medecine must follow the programme described below during the course of the DES. The length of the work experience in a hospital is a minimum of 6 months and a maximum of one year for the ensemble of the training. Apprenticeships in developing countries are authorised and counted as a quarter of their length. These training periods may only concern one year of the complementary training (Ministerial Decree of 06/04/1999). Apprenticeships in a country of the European Community are authorised for the maximal duration of one year (Ministerial decree of 06/04/1999).

## MEGE2MC Detailed programme

### Programme by subject

#### CORE COURSES

● Mandatory

△ Courses not taught during 2020-2021

⊕ Periodic courses taught during 2020-2021

⊗ Optional

⊖ Periodic courses not taught during 2020-2021

■ Activity with requisites

Click on the course title to see detailed informations (objectives, methods, evaluation...)

Year

1 2

#### o Programme court (120 credits)

*Ce programme s'adresse aux étudiants qui ont suivi avec fruit la totalité de la formation théorique et pratique prévue dans la finalité spécialisée et l'option "médecine générale" du 4e bloc annuel du master en médecine. Ce programme comprend 2 blocs annuel de stages à temps plein (stage hospitalier ou stage chez le généraliste).*

#### o Premier bloc annuel (60 credits)

Year

1 2

**○ Modules de formation (12 credits)**

○ WMEGE3001	Travail de fin d'études (1ère partie)			9 Credits		x	
○ WMEGE3030A	Séminaires de pratique accompagnée (1ère partie)			3 Credits	q1+q2	x	

**○ Stages (48 credits)**

L'étudiant choisit entre les deux lieux de stage (hospitalier ou cabinet de médecine générale). Le stage hospitalier ne peut dépasser une année (maximum 3 à 6 mois selon la spécialité dans le même service) (A.M. 08/07/1999, art. 7). L'étudiant qui choisit le stage hospitalier en premier bloc annuel ne peut donc plus le choisir en deuxième bloc annuel.

⌘ WMEGE9302	Stages de médecine générale chez le généraliste			48 Credits		x	x
⌘ WMEGE9301	Stages hospitaliers de médecine générale			48 Credits		x	x

**○ Deuxième bloc annuel (60 credits)****○ Activités obligatoires**

○ WMEGE3030B	Séminaires de pratique accompagnée (2ème partie)			3 Credits	q1+q2		x
○ WMEGE3002	Travail de fin d'études (2ème partie) ■			9 Credits			x

**○ Stages**

L'étudiant choisit entre ces deux lieux de stage (hospitalier ou cabinet de médecine générale)

⌘ WMEGE9303	Stages de médecine générale chez le généraliste			48 Credits		x	x
⌘ WMEGE9301	Stages hospitaliers de médecine générale			48 Credits		x	x

**⌘ Programme long (180 credits)**

Ce programme s'adresse aux étudiants qui ont commencé leur formation en médecine générale au plus tard lors de l'année académique 2017-2018 et qui la poursuivent par le bloc 2, c'est-à-dire, par une année d'études réalisée automatiquement pendant 2 années de stages à temps plein (en pratique de médecine générale ou en pratique hospitalière).

**○ Deuxième et troisième blocs annuels**

Le contenu du 2e bloc annuel est celui du 1er bloc annuel du programme court. Le contenu du 3e bloc annuel est celui du 2e bloc annuel du programme court.

○ WMEGE9302	Stages de médecine générale chez le généraliste			48 Credits		x	x
○ WMEGE9301	Stages hospitaliers de médecine générale			48 Credits		x	x
○ WMEGE3030A	Séminaires de pratique accompagnée (1ère partie)			3 Credits	q1+q2	x	x
○ WMEGE3030B	Séminaires de pratique accompagnée (2ème partie)			3 Credits	q1+q2	x	x
○ WMEGE3001	Travail de fin d'études (1ère partie)			9 Credits		x	x
○ WMEGE3002	Travail de fin d'études (2ème partie) ■			9 Credits		x	x

**⌘ Cours obligatoires (10 credits)**

A noter : ces cours sont obligatoires uniquement pour les médecins inscrits en bloc annuel 2 et qui n'auraient pas suivi cet enseignement lors de la 1re année de formation car étant en stages hospitaliers.

○ WMEGE2150	Habilités spécifiques du médecin généraliste (partie 1)	Guy Beuken Cécile Bolly Michel De Jonghe Emilie Dumontier Corentin Duyver Jean-Marc Feron (coord.) Virginie Fraselle Luc Haenecour Sophie Lambrecht Cassian Minguet Bruno Verstraete	12h	2 Credits	q1+q2		x

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document *"In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"*

## MEGE2MC - Information

### Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.  
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.  
The admission requirements must be met prior to enrolment in the University.*

***In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.***

#### SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)

### General access requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

### Specific access requirements

#### Specific Admission Requirements

##### Admission conditions

Before being authorised to embark on the specialised training programme in General Medicine, (MEGE 2MC), the doctor in medicine must prove that he has followed, in a continuous way, 200 hours of recognised lectures (Ministerial Decree of 03/05/1999) organised by a university centre for General Medicine (CUMG).

Furthermore :

- The applicant must hold the degree title of Doctor in Medicine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in General Medicine, in a Belgian medical faculty.

The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders or graduates from outside the European Union may only enrol on this programme with the aim of obtaining a university certificate for partial specialised training of one year's duration.

The Royal Decree of the 30.05.2002, relating to the planning of the medical offer published on the 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in General Medicine (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

##### Admission procedures

Information can be obtained from the secretary's office for the complementary masters' programmes CUMG (Brigitte Zuyderhoff). Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

## Evaluation

---

**The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

### First year

- Exams for those students beginning their studies in General Medecine and
- Evaluation by the work training supervisor leading the practical support seminars for all candidates

### Second year (and third year)

- Evaluation by the work training supervisor leading the practical support seminars
- Evaluation of certification carried out by the jury of the programme involving the defence of a personal piece of work before an inter-university jury. (MEGE3001 End of course project).

Further to the application of the Royal Decree of 16 March, 1999, the candidate will receive, at the end of the first two years of training, an attestation proving that he has successfully accomplished a specific university training course. The necessary attestation for obtaining the title of recognised General Practitioner, can only be awarded at the end of the years of the Complementary Masters.

## Possible trainings at the end of the programme

---

Doctors enrolled on the Complementary Master's programme of General Medecine will be awarded, at the end of their studies, not only the Diploma for Specialist Studies in General Medecine, but also the title of Recognised General Practitioner, from the Ministry of Public Health. This title entitles access to a specific nomenclature (higher level of reimbursement of fees) and is necessary in order to obtain the right to practise general medecine within the countries of the European Union.
