Learning outcomes

The challenges which students on the Master [120] in Modern Languages and Literatures : General prepares for are those of becoming experts in two foreign languages and responsible people capable of contributing to the main issues and challenges of a contemporary, multicultural society.

At the end of their course, students on the Master [120] in Modern Languages and Literatures : General, will demonstrate expertise in the two foreign languages studied, one chosen from English, German and Dutch, and the other from Spanish, Italian and French. This expertise relates to very high level communication competencies, characterised by the Common European Framework of Reference for Languages as those of the "advanced user, C1".

Students will be able to manage scientific research in order to critically analyse and interpret discourse at a linguistic, literary and cultural level.

Students will also be able to transfer their knowledge and implement it in a specific way in different professional contexts depending upon the type of discourse in question, such as the learning and teaching of languages, editing, culture and continuing education, business, communication, new technologies or scientific research. Their training enables them to adapt in a flexible and dynamic fashion to new challenges in the world of work and continuing development.

TEACHING FOCUS [30.0]

IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education. The programme is designed to develop the following skills :

- design, planning and assessment of practice ;
- ability to assess practices and their context ;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved :

- teaching practice at the higher levels of secondary education (60 hours)
- seminars ;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 credit Master's degree includes the training which leads to the qualification for teaching in secondary education (Agrégation de l'enseignement secondaire supérieur – AESS) (300 hours - 30 credits), in accordance with the Decrees of 8 February 2001 and that of 17 December 2003 (concerning the basis of neutrality) relating to the initial training of teachers at the higher levels of secondary education in the French Community in Belgium.

These 30 credits also make up the AESS programme in Languages and Literatures: General which can be taken after a 60 credit or a 120 credit Master's degree. In practical terms, successful completion of the Master's degree with the teaching focus leads also to the award of professional status as a secondary education teacher. Assessment of the skills in the AESS programme is spread over the 2 years of the Master's degree.

Students may if they wish combine this focus with an Erasmus or Mercator exchange which must take place either during the 2nd semester of the first block or the 1st semester of the second block. All courses for the teaching focus must, however, be taken at UCLouvain.

To be chosen from the Faculty or University programmes, with the secretary of the examining board. Students must check with the lecturer in charge that they may follow the course(s) in question. If certain courses are available in the research focus, in the core subjects or in another option course, the credits may not exceed 6 with each of these headings. No courses may be taken from the teaching focus and/or the professional focus.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration puposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- transform a prerequisite into a corequisite within the same year (to enable the student to continue his or her studies with a sufficient annual course load)
- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.

For more information, please consult the Academic Regulations and Procedures (https://uclouvain.be/fr/decouvrir/rgee.html).

The programme's courses and learning outcomes

For each UCLouvain training programme, a reference framework of learning outcomes specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document *"In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"*

Specific access requirements

1° Student must hold a first level university degree.

2° To have achieved, in the Germanic and the Romance languages that students wish to study in their master's programme, a **receptive communicative competence** (oral and written) and a **productive communicative competence** (oral and written) of **level B2+** ('higher advanced level') of the Common European Framework of Reference.

3° In addition to the above-mentioned language skills, to have developed, in the two target languages that students wish to study in their master's programme, the following skills in the context of their previous academic training:

- a **linguistic competence** (the study of grammar and its components);
- a **literary competence** (history of literature, analysis and interpretation of literary texts);
- a **cultural competence** in the broadest sense (the study of the "civilization" of the countries where both Germanic languages are spoken: historical data and contemporary realities);
- a **discursive competence** (argumentation and scientific writing);

at the end of a bachelor's programme including at least the following 108 specific credits:

- 18 credits of general training (philosophy, history, arts, language sciences, criticism of sources, etc.);
- 50 credits in language, linguistics, literature and civilization in the Romance language;
- 40 credits of language, linguistics, literature and civilization in the Germanic language.

The 30 credits from Minor in German Studies, Minor in English Studies, Minor in Dutch Studies, Mineure en études françaises, Mineure en études hispaniques or Mineure en études italiennes may satisfy these requirements.

In the absence of sufficient training in one or more of these subjects, supplementary classes will be integrated into the master's programme (from 15 credits to a maximum of 60 credits). This preparatory module is established by the jury on the basis of the student's previous course of study.

Course equivalences are submitted for approval to the jury (small panel).

4° Students wishing to pursue a master's degree with a teaching focus must have a degree of the French Community of Belgium; failing this, they will have to pass a French language proficiency examination to demonstrate that their command of written and spoken French is equivalent to Level B2 of the Common European Framework of Reference for Languages (for further information, visit https://uclouvain.be/en/study/inscriptions/french-language-master-teaching.html).

General remark concerning the choice of languages

The Master [120] in Modern Languages and Literatures : General involves continuing with the Romance language (French, Italian, Spanish) and with the Germanic language (Dutch, English, German) studied in the bachelor's programme, whether these languages were studied as part of the major or as part of a minor in Germanic language.

The language combinations German-Italian and Dutch-Italian are not organised.

Teaching method

The study paths offered by the various focuses and options (sometimes tagged) give the student more and more opportunities to "take charge of his training" as well as his gradual choices in working life. The different fields of study in the programme provide a coherent set of courses.

As for interdisciplinary, the student can include in his programme courses from other disciplines (optional). Some focuses, like some course modules: création littéraire, français langue étrangère, are clearly cross-disciplinary (library studies, "communication multilingue en entreprise", etc). In the end, the student's choice (geared towards the programme's interdisciplinary courses) will hold sway.

A second strong point is the variety of teaching strategies (including e-learning) : the use of multimedia for courses in foreign languages, the use of the possibilities offered by Icampus, and the balance between more 'lecture-based teaching and one-to-one student guidance.

Also noteworthy are the different learning situation: individual and group work, seminars and tutorials for the dissertation.

Evaluation

The evaluation methods comply with the <u>***regulations concerning studies and exams***</u> ***(https://uclouvain.be/fr/decouvrir/ rgee.html). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

There are many types of evaluation: evaluation of work and seminars and/or oral and written exams.

The student must write his masters dissertation in one of the two languages in his programme and add a summary in French.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

As part of their studies, students enrolled in the Master [120] in Modern Languages and Literatures : General are encouraged to undertake:

- a **study visit** for one term (30 credits) in one of the <u>many universities</u> (https://uclouvain.be/fr/facultes/fial/partenaires-0.html) with which the Faculty of Philosophy, Arts and Letters has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator Mercator programme, or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme, and/or
- an **internship** in Belgium or abroad, in preparation for their dissertation and/or as part of their specialisation ("focus").

The study visit may be combined with an internship.

It is advisable to organise the study visit during the second term of the first year or the first term of the second year.

Note: all teaching focus classes must be taken at UCLouvain.

Furthermore, under the agreement between UCLouvain and KU Leuven, courses may be taken from the KU Leuven programme.
