SPHM2M - Introduction

Introduction

SPHM2M - Teaching profile

Learning outcomes

Teaching on political sciences and public administration aims to equip students conceptually and operationally, allowing them to identify the constraints that govern collective decision-making and to be able to act in this world rationally, effectively and fairly.

Three additional aims are pursued:

- the first relates to the development of analytical skills, critical perspective, creativity;
- the second relates to understanding our society and the events taking place today that will help shape our future;
- the third focuses on the techniques that provide access to analysis and support action.

The programme for the first year of the Master's degree [120] in Political Sciences and Public Administration includes all the courses from the Master's degree [60] in addition to a course on public finances and a course seminar on political sciences theory.

The second year is centred on the three advanced subjects relating to the three dimensions of political sciences. "Democracy and public action" provides an in-depth analysis of the political system by considering the new forms of democracy and public and political action. "Analysis and evaluation of public policies" studies the effects of the implementation of local, national or international public policies and the process via which its orientation and way of shaping reality acquire legitimacy. "Special issues in international relations" encourages students to consider topics in greater depth, such as the development of the role of the United States in the world, the conflicts or strategies of international actors. Based on case studies, these courses include a seminar section where the students are encouraged to hone their skills in the areas that most interest them.

While working on their final dissertation, students will participate in a seminar in which they learn to communicate on scientific subjects, to listen to suggestions from peers and to exercise critical judgement and an ability to make suggestions in response to their proposals.

On successful completion of this programme, each student is able to :

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- transform a prerequisite into a corequisite within the same year (to enable the student to continue his or her studies with a sufficient annual course load)
- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.

For more information, please consult the [Academic Regulations and Procedures](#).

Prerequisites list

MSPHD2204 "Mémoire en sciences politiques [120]" has prerequisite(s) MSPHD2136 ET MSPHD2137 ET MSPHD2138 ET MSPHD2139 ET MSPHD2143 ET MSPHD2144

- MSPHD2136 - Régimes politiques comparés
- MSPHD2137 - Sociologie politique
- MSPHD2138 - Système politique de la Belgique
- MSPHD2139 - Théorie des relations internationales
- MSPHD2143 - Théorisation en sciences politiques
- MSPHD2144 - Séminaire de méthodologie et principes de rédaction scientifique

MSPHD2206 "Questions spéciales de relations internationales" has prerequisite(s) MSPHD2139

- MSPHD2139 - Théorie des relations internationales

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with your UCLouvain account.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Les méthodes d'évaluation sont diverses : réalisation de travaux individuels et/ou de groupe , passage d'examens écrits ou oraux, réalisation d'un mémoire.
