GEST2M - Introduction

Introduction

Introduction

This master prepares you for management positions in private and public organisations. It develops your abilities to:

1. integrate management theories and concepts for efficient and controlled use in a professional world;
2. place organisations in their socio-economic and institutional context, to understand the interdependencies between organisation and environment and translate them into management decisions;
3. integrate the challenges of international competition into "socially responsible" management practices.

This Master also offers different unique opportunities that will add value to your curriculum:

- by taking a quadrimester course at one of the 145 partner universities;
- by participating in the "CEMS" selection programme with a view to obtaining, in addition, the Master in International Management (CEMS) diploma, exclusive in Belgium;
- by participating in the "IB" selection programme (exchange stay in a partner university and a 6-month internship in a company outside the European Union);
- by doing a double degree organized with one of the 7 prestigious partner universities;
- by integrating specialization in "entrepreneurship" (CPME training);
- by specializing in finance thanks to [Track Financial Management giving the final double-diploma LSM and ICHEC](#);
- by becoming an expert in digital marketing;
- by completing a double master's degree in management and law (specific conditions);
- by following a major and an option in your chosen field in order to become an expert in the field.

Your profile

You:

- have a bachelor's degree in economics and/or management and you wish to strengthen your managerial skills;
- are a bachelor and master of law, have completed the minor and additional courses in management (for the double master of management and law);
- wish to undertake and transform initiatives into economic or social realities;
- move towards decision-making and management functions;
- strive for excellence in national and international management.

Your future job

Position of responsibility in the management and management of companies in which you will be able to put into practice your capacity to undertake, to transform initiatives into economic realities, to organize these activities and ensure their continuity, to find the necessary resources and to combine them in an adequate way.

Our graduates are present in the highest management positions of companies as well as in consultancy, audit, banking, industry (production and operations management) or environmental management.

Your programme

During this Master, you will develop the skills necessary to master the complex and varied challenges companies face in the knowledge economy. You:

- learn how to model and formalize management problems and situations;
- integrate technological processes and master their application in the industrial world;
- strengthen your language skills by taking part of the English courses.

The Master 120 will be composed of:

- professional focus courses (or research focus courses for those wishing to prepare for a doctorate) in the management disciplines (finance, marketing, strategy,...) as well as seminars;
- a **major**, composed of 6 courses, to be chosen among the major fields of management;
- an exchange quadrimester (highly recommended but not compulsory) or a quadrimester of 6 courses including a language course, an option of 3 courses,...;
- an internship;
- a master's thesis.

Please note that, depending on your academic background, teaching units (= prerequisite courses) could be added to your master program.

GEST2M - Teaching profile

Learning outcomes

The Master in Management prepares the graduate to meet the challenge of **becoming a socially responsible professional with a transversal approach to the management professions.**

The **Master in Management** is a programme that develops the transversal skills and expertise necessary for management functions in public or private, national or international, commercial or non-commercial organisations.

At the end of this programme (including an optional company work placement and foreign exchange), the graduate will have developed the skills and knowhow that will allow him to master the complex and varied issues that organisations encounter in management of occupations, skills and processes, whether at a strategic, tactical or operational level. He will also be specialised in one or more management functions: human management, marketing, finance, accounting, operations and logistics, e-business, etc.

At the end of this programme, the graduate will be:

> **Responsible:** capable of implementing socially responsible management practices in private or public organisations while taking account of the issues of international competition.

> **A professional:**

- who has assimilated management theories and concepts for efficient, expert use in a professional setting;
- capable of locating organisations in their socio-economic and institutional context, understanding the interdependences between the organisation and the environment, and translating them into management decisions;
- who has developed in-depth skill in key management functions and their international aspects;
- capable of handling a wide variety of management problems, taking into account diverse economic, social and political environments.

Aware of the responsibility inherent to his profession, the graduate will have acquired the mindset of a critical participant, capable of making decisions in organisational environments by putting **ethical and socially responsible management values** at the centre of his concerns. He will have adopted an approach of continuous development that will allow him to be a professional demonstrating flexibility, capable of adapting and evolving positively in his environment.

THE COMPETENCY FRAMEWORK

Introduction

The exit profile of the Master in Management graduate is specified by the **LSM competency framework**, with in particular:

- an academic education centred on training in economics and management, with a transversal approach to management functions.
- priority given to the following skills:
 - o Acting as a socially responsible participant,
 - o Mastering knowledge,
 - o Acting in an international and multicultural context.
- a possibility of developing some of these skills in greater depth through his choice of options, tracks, Master's thesis, internship and exchange.

3. Research training

Students wishing to prepare for the completion of a Doctorate in Management or, more broadly, to learn the methods and domains in research, fundamental and applied, in management have the opportunity to follow the Specialized Focus. The Specialized Focus will develop the student's ability to:

- Identify and locate the different epistemological paradigms characterizing the research in management
- Master the specific methodological modelling approaches and/or empirical, qualitative/quantitative, and design a research platform

On successful completion of this programme, each student is able to :

1. Corporate citizenship: Act consciously, aware of their responsibilities, placing human and ethical considerations at the very heart of their thinking and actions.

1.1. Demonstrate independent reasoning, look critically and consciously at acquired knowledge (both academic and common sense) and managerial practices, in light of emerging circumstances and their outcomes.

1.2. Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development.

1.3. Decide and act responsibly, while taking into account the social, economic and environmental, sometimes antinomic, outcomes in the short, medium and long term, for the various stakeholders.

2. Knowledge and Reasoning: Master an active and integrated command of a multidisciplinary body of knowledge (content, methods, models, conceptual frameworks) essential to act expertly in the various areas of management.

2.1. Master the core knowledge of each area of management.

2.2. Master highly specific knowledge in one or two areas of management: advanced and current research-based knowledge and methods.

2.3. Articulate the acquired knowledge from different areas of management.

2.4. Activate and apply the acquired knowledge accordingly to solve a problem.

2.5. Contribute to the development and advancement of the management field.

3. A scientific and systematic approach: Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

- 3.1. Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.
- 3.2. Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.
- 3.3. Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.
- 3.4. Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.
- 3.5. Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation and Entrepreneurship: Innovate, initiate and lead change.

- 4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.
- 4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.
- 4.3. Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.
- 4.4. Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment: Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

- 5.1. Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.
- 5.2. Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.
- 5.3. Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership: Integrate and work in a team, exercise enlightened leadership within the group.

- 6.1. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.
- 6.2. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

7. Project Management: Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

- 7.1. Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.
- 7.2. Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.
- 7.3. Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8. Communication and Interpersonal Skills: Communicate, converse effectively and convincingly with the stakeholders.

- 8.1. Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.
- 8.2. Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-to-face and group contexts, using both verbal and nonverbal communication skills: demonstrate the ability to listen, empathize, be assertive, provide and accept constructive criticism.
- 8.3. Persuade and negotiate: understand the needs and viewpoints of others, put forward their reasoning in an appropriate, relevant and persuasive manner, able to bring out points of agreement, even in antagonistic situations.

9. Personal and professional development: Display self-knowledge and independence, able to adapt quickly to new situations and involve positively.

- 9.1. Independent self-starter: set priorities, anticipate and plan work activities within time constraints, rigorous, structured and thorough, even in changing, uncertain environments or crisis.
- 9.2. Self-awareness and self-control: be aware of and manage their own emotions, able to be objective about their work and behaviour, and recognize their own strengths and weaknesses, accept them and use them in a professional manner.
- 9.3. Self-motivation: be capable of creating a project in line with their own values and aspirations, confident and motivated in managing the implementation of the project, and persevere in difficult situations.
- 9.4.

Quick study, lifelong learner: quickly and independently assimilate new information and skills needed to evolve in their professional environment, learn from successes and errors in the spirit of lifelong learning.

Five different areas of training accessible after selection which will give a real asset into your CV:**The CEMS Master's in International Management - [CEMS MIM](#)**

The Louvain School of Management is the sole partner in Belgium of this network which, for the last few years, has brought together the best European management schools and various partners from outside Europe.

Interdisciplinary programme in Entrepreneurship - [CPME](#)

This programme brings together students from different faculties at UCL and provides them with the analytical tools to help them understand business processes, start or take on businesses of different kinds and to develop business projects within existing organisations.

International Business programme - [IB](#)

This programme is designed for students who wish to pursue an international career. By combining a preparatory major dedicated to this programme, courses taken on exchange and a 6-month work placement abroad in a multinational company, it promotes an open-minded approach, intercultural awareness, adaptability and pro-activity, all of which are vital for work in an international context.

Double Degree - [DD & DDD](#)

By accumulating 60 course credits at the Louvain School of Management, around 40 course credits at the partner university DD and a joint master's thesis to both universities for 20 credits, the students acquire two master degrees, one delivered by the LSM and the other by the partner university :

- Universität zu Köln (Cologne, Germany)
- Norwegian School of Economics and Business Administration (Bergen, Norway)
- Universidade NOVA de Lisboa (Lisbon, Portugal)
- University of Economics Prague (Czech Republic)
- Vytautas Magnus University (Kaunas, Lithuania)
- Aix-Marseille Université (Aix-Marseille, France)
- KU Leuven (Leuven, Belgium)

- Instituto Superior Técnico - Technical University of Lisbon (Lisbon, Portugal)

A "Dedicated Double Degree", DDD focus on Environmental issues and Supply Chain Management, exclusively offered by LSM and NHH.

The Master in Management, "Financial Management Track" with a double degree LSM-ICHEC

NOTE:

- Holders of a second cycle university degree comprising at least 45 credits of Master level courses equivalent to the Master in Management can **obtain, in 1 year, the Master 120 credits in Management**. Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Teaching method

This programme, the quality of which has been recognized by external auditors in the EQUIS international accreditation procedure, has four main strengths:

- **A particularly wide range of specialization majors**

By having access to more than 10 "classic" functional majors (e.g. marketing, finance) or transversal majors (e.g. European Business, Entrepreneurship), the student can specialize in the most advanced fields of management sciences. He/she generally reinforces this specialization by completing a master's thesis and an internship in the same field.

The majors are accessible on the two sites of the LSM: Louvain-la-Neuve and Mons.

- **Teaching that combines academic knowledge and professional practice**

Teaching is provided in a balanced manner by teachers who are also active researchers in their field and by professionals selected for their widely recognized experience and expertise. All students (except CPME and DD students) must complete minimum 60-day internship in a company. They all also have to write down a master's thesis which can be linked to a problem or mission identified during the internship. Links with companies are omnipresent both in teaching and in extra-academic activities organised by the Corporate unit of the school.

- **Teaching methods centred on learning and the development of transversal competences**

This is reflected in the almost widespread use of problem-oriented teaching methods, collaborative learning (case studies, projects, problems, simulations) and work autonomy. This approach is developed in conjunction with mandatory readings, theoretical frameworks and conferences and is based on a balance between continuous evaluation and final evaluation of learning, between individual and group evaluations.

- **A strong international presence**

This internationalisation is based in particular on a particularly extensive network of exchange partners (over 140 partner schools), exclusive access in Belgium to the Master in International Management organised by CEMS and the possibility of acquiring a [double degree](#) with one of the seven prestigious partner universities.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Various assessment methods are used on this programme:

- **Continuous assessment** of work/learning of each group of students: public presentations, debates, written reports;
- **The Individual assessment** : oral or written exams (after the six week-courses block or during the exam sessions), mission or internship report,... in which critical review and integration in a work group are assessed.

For additional information on assessment methods, see the course description by clicking on the title.

Mobility and/or Internationalisation outlook

This Master's programme offers various internationalisation and mobility opportunities that will add value to your curriculum:

1. **A quadrimester abroad** (30 credits) as part of an [exchange programme](#) in one of the 145 worldwide recognised partner universities in management, some of which are part of the exclusive PIM (Partnership in International Management) network, have accreditations such as EQUIS,...
2. **A quadrimester in Flanders** (30 credits) as part of the [Erasmus Belgica](#) programme, at one of the 3 recognised partner universities in management.
3. The exclusive and unique opportunity in Belgium to follow the [prestigious Master's in International Management](#) organised by the [CEMS](#) network.
4. The opportunity to follow the **annual block 2 abroad** as part of the ['IB' International Business](#) programme, which includes a quadrimester abroad as part of an exchange programme at a partner university and a six-month work placement in a company outside Europe.
5. The possibility of acquiring **two Master's degrees** by combining a full year at LSM (UCLouvain) and another full year at a partner university. Several ['DD' double degrees](#) and a [DDD \(Dedicated Double Degree\)](#) are offered in partnership with 7 prestigious European universities.
6. The **possibility** for a student to follow the **entire programme in English**.

Possible trainings at the end of the programme

- [Doctoral School in Management \(Louvain-la-Neuve\)](#)
- [Master 120 in Environmental Science and Management \(Louvain-la-Neuve\)](#)

- [Master 60 in Information and Communication \(Louvain-la-Neuve\)](#)
- [Master 60 in Information and Communication \(Mons\)](#)
- [Master in Law](#) (through the successful completion of the bachelor's and master's degrees in management, as well as the minor's access and additional courses in law)
