THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

MINOGEST - Information

Access Requirements

Specific access requirements

The minor is not accessible to students enrolled on the ESPO faculty's baccalaureate programs or those who are enrolled on the baccalaureate in computer science who, for their part, have specific minors.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

The minor in business studies does not allow students to automatically go on the Master's in Business Studies unless they meet a number of conditions (with the consent of the person in charge of the program) : consideration will be paid to the all the courses that made up the student's baccalaureate, and, where the student has not taken certain courses, they will be added to the Master's in Business Studies program (maximum 15 credits). The student must have completed an " introduction to blue-collar work " and have written an analysis report on the subject. This introduction consists of one week of work, primarily of a manual nature, in companies, associations, etc.

2. Admission to the minor

Not applicable

3. Enrolling on the minor

Once s/he has enrolled on BAC12, the student enrolls on the elective on the website:

<https://uclouvain.be/optionbac>

In BAC13, the student is automatically enrolled on the minor on which s/he was enrolled in BAC12.

4. Follow-up to the minor enrollment

The follow-up to the minor enrollment request can be carried out via the BAC12 enrollment program which is available on the web.

5. Changes to the minor enrollment

Any student who wishes to change his/her choice must consult his/her son conseiller aux études (course adviser) from his/her own faculty.

Course times

1. Consulting the course times

<https://uclouvain.be/espo-mineures.html>

2. Resolving timetable clashes

Once s/he starts on the BAC12 course, the student puts together his/her BAC12 and BAC13 timetable, paying attention to the minor course times.

If a timetable clash arises, several solutions are possible :

Postponing courses :

Should a timetable clash arise in BAC12 (major course/ and elective course), the student may ask to postpone one of the two course until the following year, taking account of the sequences of the courses (requirement). The course to be postponed may be the major course or elective course.

Students are not obliged to follow the 15 elective credits every year. Each year of study should ideally include 60 credits. The student must set out his/her program evenly over the two years in order to be in the best position to obtain, for the BAC13, 30 elective credits and 150 major credits.

The student must obtain the consent of the conseiller aux études (course adviser) to postpone course until the next year. The course adviser will also look at how evenly the program is spread out over the two years.

Bringing courses forward :

Should there be a timetable clash in BAC13 (major course/ and elective course), the student may bring forward one of the two courses. The course to be brought forward may be the major course or elective.

Students are not obliged to take the 15 elective credits each year. Each year of study should include 60 credits. The student must spread his/her program out evenly over two years of study in order to obtain, for the BAC13, 30 elective credits and 150 major credits.

The student must ask the conseiller aux études (course adviser) for permission to bring a course from the next year forward. The course adviser will also check that courses are spread out evenly over the two years.

Accepting the clash :

In some cases, the student may benefit from pedagogical alternatives when there is a clash of course and thus not have to attend the class in question.

If the student cannot attend the class, s/he must obtain the prior consent of the teacher.

Information on alternative pedagogical arrangements, if such arrangements exist, is available in every detailed course description (above).

Finding an equivalent course that does not lead to a timetable clash:

Useful information is available in every detailed course description (above). The student must obtain the prior consent of the conseiller aux études (course adviser) for the choice of equivalent course.
