⊗ WMSSP2512	Pratique de l'analyse des données quantitatives en santé (avec R) (ULB)		[FR] [q2] [30h+30h] [5 Credits]

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

MSSP2MC - Information

Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.*

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- [General access requirements](#)

General access requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

Teaching method

Le cours couvre l'ensemble du champ de la santé publique tant en ce qui concerne les politiques et systèmes de santé, les méthodes quantitatives et qualitatives et la prise en charge des problèmes de santé et cela à travers les cours, les travaux pratiques et les séminaires.

Les étudiants doivent réaliser des travaux personnels interdisciplinaires, seuls ou en groupe, ils doivent organiser leurs activités et travailler en équipe, avoir un regard critique sur le contenu des publications (méthodologies et résultats) et sur les méthodes de travail. Le thème de certains travaux est à choisir en fonction de l'expérience personnelle de chacun.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".
