ROM1BA - Introduction

Introduction

Introduction

Studying Philosophy, Arts and Letters broadens horizons on the world. It is designed to provide a rigorous general training course related to a linguistic and literary specialisation.

By the end of the first cycle, you will have

- gained solid general, literary and historical knowledge;
- developed your skills in argumentation and writing;
- developed your literary sensitivity and be capable of commenting on and interpreting a poetic, narrative or dramatic text;
- powerful tools at your disposal for analysing language;
- reached a good level in both speaking and writing in Spanish and Italian.

Your profile

To start studying French and Romance languages and letters, it is not always necessary to have already made a clear choice of career or to only go into teaching. A marked interest in literature and curiosity about the French language (and also for Spanish and Italian) are also excellent reasons to embark on this venture!

Your future job

Our students become teachers, booksellers, journalists, researchers, but also, for example, commercial representatives, writers and theatre directors. They can also be found working as advisers in multimedia and communication, editorial and production assistants in publishing or as HR managers in business etc.

Your programme

The Bachelor's degree offers you

- general training in philosophy, arts and letters to introduce you to university level work : history, art and civilisations, European literatures, methodology and practice of academic discourse, ancient and modern languages ;
- solid training in humanities : historical criticism, language studies, philosophy, etc. ;
- study of literary theories used in the analysis of works and a wide-ranging knowledge of the texts which form our literary heritage ;
- a significant practical element (learning the process of writing a document) ;
- a choice between studying Spanish or Italian language and literature.

Having completed the Bachelor's degree, you can continue by taking the Master's degree in French and Romance Languages and Letters.

Learning outcomes

By the end of their course, graduates of the [Bachelor in French and Romance Languages and Literatures : General](#) will have developed a sound understanding of the main disciplines of their degree course (language and literature). They will have acquired literary and linguistic concepts, notions and knowledge in the French and Romance fields and will be able to apply these with ease and appropriately to their thoughts, analysis and university assignments. They will have acquired various working tools and an ability to study independently, which they will take with them to Master's level. They will have a good knowledge of written and spoken French and will be able to express themselves fluently, both orally and in writing, in the course's second Romance language (Spanish or Italian).

Graduates of the [Bachelor in French and Romance Languages and Literatures : General](#) are inquisitive, open to other cultures and keen to learn about other humanities fields, and have the ability to work autonomously on language and literature research projects.

Programme structure

The bachelor programme in French and Romance Languages and Letters : General totals **180 credits over 3 years** (3 x 60 credits). It consists of a basic major syllabus of 150 credits and a minor syllabus of 30 credits (2 x 15 credits), over years 2 and 3.

Three pivotal courses make up the 150 credits of the **major orientation** of the bachelor syllabus:

- (1) introduction to the **human sciences** (historical criticism, arts and civilisations, European literature, analysis and practice of academic discourse, ancient and modern languages, philosophy, language science, logic and argumentation, religious sciences);
- (2) introduction to **French and Romance languages and letters** (literary history, theory of literature, analysis of texts [Ancient and Middle French: the novel, poetry and theatre], francophone literature in Belgium, French syntax, French linguistics [synchronic and diachronic considerations], Romance linguistics, comparative literature);
- (3) Practical training in **oral and written communication** in a Romance language (Spanish or Italian).

The first block of undergraduate studies starts with a term of general foundation courses common to all of the faculty's Bachelor's programmes. Students will be introduced to history, art history, literature and the art of academic discourse, providing them with a solid grounding and the opportunity to transfer.

They will also receive discipline-specific courses from the first term of Block 1. These will become their core courses in the second term of Block 1.

From Block 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCL faculty, subject to certain admission requirements set by the programme managers.

○ Minor (30 credits)

Students choose a minor from the list of available minors and take into account any access requirements laid down by the management bodies. They will distribute the 30 credits of the minor between the annual block 2 and the annual block 3 of their bachelor's degree, so that their course programme (major + minor) comprises 60 credits each academic year.

List of available minors

When accessing the bachelor's cycle (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option integrated into the bachelor's programme and it allows students to discover another discipline of the Faculty or of another faculty.

Some minors allow easier access to a Master's degree (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

Consisting of a coherent set of courses, whether or not linked to the Bachelor's programme major, the minor allows students to reflect on their personal learning project and to define the emphasis and meaning they wish to give to their training path.

This opportunity is not decisive, as there are other ways of orienting one's course afterwards, for example by adding a preparatory module to access another Master's degree.

Access conditions

Students select a minor from the list below. Access to the minors marked with an asterisk (*) is subject to compliance with certain conditions (admission test, application file, etc.) which must be taken into account before enrolling.

Do you need advice?

Any student of the Faculty of Philosophy, Arts and Letters who wishes to be advised in his or her choice of minor is invited to contact Ms Fiorella Flamini, study advisor of the Faculty (conseiller.etudes-fial@uclouvain.be).

Students divide the 30 credits of the minor between the annual block 2 and the annual block 3 of their bachelor's programme, so that their course programme (major + minor) comprises 60 credits each academic year.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- transform a prerequisite into a corequisite within the same year (to enable the student to continue his or her studies with a sufficient annual course load)
- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.

For more information, please consult the [Academic Regulations and Procedures](#).

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Teaching method

The bachelors programme in Bachelor in French and Romance Languages and Letters : General begins with a common semester made up of general courses given within the faculty. These general courses are taught by a team of teachers who emphasize an active exchange involving practical work and student participation. This common semester provides students with the opportunity to change to another bachelors programme at the end of the January exam session if the student's advisory office agrees.

From the second semester of the first year on, the courses specific to the students' bachelors programme use a variety of pedagogical methods (active learning, a balanced combination of individual and group work) with the aim of acquiring knowledge and the ability to analyse.

Throughout the student's bachelor programme in Bachelor in French and Romance Languages and Letters : General, students experience a variety of teaching methods : lectures, group work, individual work, seminars. Some courses also use e-learning (exercises and resources are made available to students, pedagogical management, sharing and evaluation by the class of work).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

Students pursuing a [Bachelor in French and Romance Languages and Literatures : General](#) may, as part of their studies, undertake:

- a **study visit** for one term (30 credits) in one of the [many universities](#) with which the Faculty of Philosophy, Arts and Letters has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator programme; or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme.

Ideally, the exchange should be planned during the first term of the third year.
