- > **Research Focus** [en-prog-2021-rom2m-lrom200a]
- > **Teaching Focus** [en-prog-2021-rom2m-lrom200d]

RESEARCH FOCUS [30.0]

By offering the opportunity to further the fundamentals of the course and introducing students to an approach to research, the research focus develops culture generally and specific academic skills for the student of romance languages: analysis, review, a critical mind, autonomy, adaptability and the perfection of all elements of discourse. It is aimed at students who are interested in research, but also in the numerous indirect prospects to which an education in French and romance languages and literature can lead.

Students have the opportunity to gain work experience through an internship related to one of the direct or indirect career options relevant to their research focus. This can take place during the first or second year of the Master's degree. At least two weeks prior to the programme approval date (in the first or second bloc), students must submit their internship proposal and a duly completed internship agreement to the supervisory panel. Students whose proposals are not accepted will add an additional research focus module to their programme.

Students who choose this finalité may apply to participate in the co-graduation program in French and Francophone Studies, which associates UCLouvain with three partner universities:

- the University of Paris 3 - Sorbonne Nouvelle;
- the Ca'Foscari University of Venice;
- the Humboldt University of Berlin.

A program is drawn up for each student: the first year of the master's degree is completed at the UCLouvain and the second year at the chosen partner university. At the end, the student receives, in case of success, the diplomas of master of the two universities. An equivalent system exists with the University of Lausanne, but does not lead to a double degree. TEACHING FOCUS [30.0]

IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education. The programme is designed to develop the following skills:

- design, planning and assessment of practice;
- ability to assess practices and their context;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved:

- teaching practice at the higher levels of secondary education (60 hours);
- seminars;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 credit Master's degree includes the training which leads to the qualification for teaching in secondary education (Agrégation de l'enseignement secondaire supérieur – AESS) (300 hours - 30 credits), in accordance with the Decrees of 8 February 2001 and that of 17 December 2003 (concerning the basis of neutrality) relating to the initial training of teachers at the higher levels of secondary education in the French Community in Belgium. These 30 credits also make up the AESS programme in Ancient Languages and Letters: Classics which can be taken after a 60 credit or a 120 credit Master's degree.

In practical terms, successful completion of the Master's degree with the teaching focus leads also to the award of professional status as a secondary education teacher. Assessment of the skills in the AESS programme is spread over the 2 blocks of the Master's degree.

Students may if they wish combine this focus with an Erasmus or Mercator exchange which must take place either during the 2nd semester of the first block or the 1st semester of the second block. All courses for the teaching focus must, however, be taken at UCLouvain.

Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, they must add supplementary classes at the beginning of their Master's programme in order to obtain the prerequisites for these studies.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below). The complementary module (maximum 60 credits) is tailor-made by the jury according to the student's educational background and added to the Master's programme in order to acquire fundamental knowledge to then pursue the 120 credits of the Master's programme.

Who is it for?

- Students from a non-university higher education institution
- Candidates admitted with additional training
- Candidates admitted on the file with additional training

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- transform a prerequisite into a corequisite within the same year (to enable the student to continue his or her studies with a sufficient annual course load)
- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.

For more information, please consult the [Academic Regulations and Procedures](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Specific access requirements

1° Student must hold a first level university degree.

2° Provide proof of **level C1** of the [Common European Framework of Reference](#) in French.

In addition, any student must provide proof to have achieved, in the second Romance language (Spanish/Italian), a receptive communicative competence (oral and written) of **level B2** and a productive communicative competence (oral and written) of **level B2.1** of the [Common European Framework of Reference](#).

3° To have developed the following skills in the context of their previous academic training:

- knowledge of French and Romance literature and linguistics (notions, genres, trends, authors, reference theories, etc.);
- the production of a discourse that adequately and rigorously integrates the vocabulary, notions and concepts specific to each of these disciplines;
- the mobilization of knowledge acquired in the various fields of the human sciences for the analysis of a literary text and a linguistic corpus;
- mastery of the standard French language, both orally and in writing, and production of a university-level oral/written discourse in French;
- the receptive and productive mastery of one of the two Romance languages provided for in the curriculum (Spanish or Italian);

at the end of a bachelor's programme including at least the following 100 specific credits:

- 15 credits of general training (philosophy, history, arts, language sciences, criticism of sources, etc.);
- 10 credits of general and comparative linguistics and literature;
- 55 credits in French language and French literature (history of language and literature, literary analysis, historical linguistics, grammar, Old/Middle French, Belgian literature, etc.);
- 20 credits in Romance languages and literatures (Spanish/Italian).

In the absence of sufficient training in one or more of these subjects, supplementary classes will be integrated into the master's programme (from 15 credits to a maximum of 60 credits). This [preparatory module](#) is established by the jury on the basis of the student's previous course of study.

Course equivalences are submitted for approval to the jury (small panel).

4° Students wishing to pursue a master's degree with a teaching focus must have a degree of the French Community of Belgium; failing this, they will have to pass a French language proficiency examination to demonstrate that their command of written and spoken French is equivalent to Level C1 of the Common European Framework of Reference for Languages (for further information, visit <https://uclouvain.be/en/study/inscriptions/french-language-master-teaching.html>).

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Candidates who do not fulfil the abovementioned admission requirements, but who have duly attested significant experience relevant to the field of study in question, may apply for admission to the programme on the basis of an individualised admission procedure.

For more information on the procedure for admission by validation of learning from experience (VAE) in the Faculty of Philosophy, Arts and Letters: <https://uclouvain.be/fr/facultes/fial/valorisation-des-acquis-de-l-experience-vae.html>.

Access based on application

Admission on the basis of a submitted dossier may be granted either directly or on the condition of completing additional coursework of a maximum of 60 ECTS credits, or refused.

If the students' educational background is incomplete, supplementary classes may be integrated into their master's programme.

Students with a Belgian degree

Students whose previous educational background is not included in the above-mentioned admission requirements may apply for admission according to the [procedure described below](#).

Students with an international degree (EU)

Students whose previous educational background is not included in the above-mentioned admission requirements may apply for admission according to the [procedure described below](#).

Students with an international degree (outside the EU)

Students holding an undergraduate and/or postgraduate degree from a university outside Europe may apply for admission, provided they have obtained at least a 55% (or 11/20) general average for all successful academic years at their home university.

Applications that do not meet this minimum average requirement will be automatically rejected.

However, this may be waived provided that the applicant has duly attested significant professional experience (consult [Validation of learning from experience](#)).

Admission and Enrolment Procedures for general registration

Requests for **further information** regarding admission to this Master's programme should be addressed to Ms. Fiorella Flamini, Study Adviser (conseiller.etudes-fial@uclouvain.be) of the Faculty of Philosophy, Arts and Letters.

All applications for **admission, enrolment or re-enrolment** (from a Belgian or international candidate) must be submitted online to the UCLouvain Enrolment Service (SIC): <https://uclouvain.be/en/study/inscriptions>.

If a **Faculty's authorisation or derogation** is requested by the UCLouvain Enrolment Service (SIC), the request for authorisation must be submitted to the Faculty of Philosophy, Arts and Letters, in accordance with the procedure described on the page: <https://uclouvain.be/fr/facultes/fial/admission-et-inscription.html>.

Specific professional rules

Successful completion of the master's course with **teaching focus** leads to the award of the master's degree with teaching focus and the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

Teaching method

The different pathways on offer provide the student with the chance to construct his course according to his skills and interests and thus gain relative autonomy in his training. The different areas of study in the programme offer a coherent, high-quality set of courses.

* Promoting interdisciplinarity : first, the various options offer the student the possibility to include in his programme courses from other disciplines, for example by prolonging the minor taken in the bachelor programme. Second, the professional focuses in library studies and natural language processing are clearly interdisciplinary. In the end, the student's choices (geared towards the programme's interdisciplinary courses) hold sway.

* Variety of teaching strategies (including e-learning) : whilst the mandatory core course foreign language courses (Italian and Spanish), use multimedia, the majority of masters classes use the resources provided by Moodle, which strikes the balance between traditional, lecture-style teaching and more one-on-one guidance.

* Diverse learning situations : the master courses make use of both lecture situations and individual and group work in seminars, which is mandatory in the basic training. Incidentally, tutorials are planned for the dissertation, as part of the accompanying seminar.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Students are evaluated in many ways: through work and oral/written exams.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

Double degree programme

A double degree programme in French and French-speaking Studies is available to students interested in the master in French and Romance Languages and Literatures: General.

This international master is co-organized by a consortium of six European universities:

- The Università Ca' Foscari Venezia
- The Sorbonne Nouvelle University - Paris 3
- The Humboldt-Universität zu Berlin
- The Université catholique de Louvain
- The University of Lausanne
- The Universidad Autónoma of Madrid

The program last four semesters, two of which (the 3rd and the 4th) take place in one of the partner universities.

At the end of their training, selected students will be awarded two diplomas. Depending on the partner university, they will get the diplomas of UCLouvain and the diploma of:

- Laurea magistrale in lingue e letteratura europea, americana e postcoloniali (Università Ca' Foscari Venezia)
- Master mention Lettres (Sorbonne Nouvelle University - Paris 3)
- Master of Arts (Humboldt-Universität zu Berlin)

Students can also choose to spend their 3rd and 4th semester in one of the two other universities in the consortium (the University of Lausanne or the Universidad Autónoma of Madrid) to take courses and work on their master's dissertation, even though the credits earned at the partner university will not lead to a double degree.

Students interested in this international programme are invited to consult the pages dedicated to this program by following the link below:

<https://uclouvain.be/fr/facultes/fial/codiplomation-etudes-francaises-et-francophones.html>

International Mobility

Students pursuing a [Master \[120\] in French and Romance Languages and Literatures : General](#) may, as part of their studies, undertake:

- a **study visit** for one term (30 credits) in one of the [many universities](#) with which the Faculty of Philosophy, Arts and Letters has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator programme, or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme.

It is advisable to organise the study visit during the second term of the first year or the first term of the second year.

Note: all teaching focus classes must be taken at UCLouvain.

Students can undertake an **internship** in Belgium or abroad as part of their study programme. Internships must be related to the specialization (focus) or, in some cases, to the preparation for the MA dissertation.
