GEHD2M1 - Introduction

Introduction

Introduction

The Master's 60 credits in Management (shift schedule), taught in French, covers most of the basic management programme. It aims to train you in the main management skills to enrich your basic training, previously acquired in another field.

Your profile

You:

- have professional experience and you want to strengthen your skills with solid management knowledge;
- want to meet other persons with different training and experience;
- wish to give added value to your profile by developing an understanding of the management issues of the organisations or companies where you will be called upon to practice your profession.

Your future job

Management graduates have careers in many sectors: industry, banking and insurance, retail, auditing, private companies, public bodies, SMEs, multinationals, consulting firms.

They are responsible for: management controller, company auditor, investment advisor, financial analyst, HR development manager, project manager, IT consultant, etc.

Your programme

The Master's 60 credits in Management (shift schedule) offers you:

- an overview of business management;
- a high-level programme that reconciles the demands of professional and family life with those of university studies;
- an innovative pedagogical approach that offers you the opportunity to develop a managerial vision of your professional expertise.

GEHD2M1 - Teaching profile

Learning outcomes

Graduate vision

The Master 60 in Management evening course prepares the graduate to meet the challenge of **becoming a socially responsible professional with a global overview of the management professions**.

The **Master 60 in Management evening course**, is a programme that develops the basic skills and expertise necessary for management functions in public or private, national or international, commercial or non-commercial organisations.

A student registering for this programme has already been involved in an active professional life for at least 3 years. Throughout the programme, the student calls on this experience and compares it to the knowledge, tools and theoretical and methodological frameworks, and vice versa. Thus, the Master's programme allows him to consider and enrich his professional and personal development by incorporating an academic approach, a reflective view and critical detachment.

At the end of this programme, the graduate will be:

Responsible:

He is capable of implementing socially responsible management practices in private or public organisations.

A professional:

- He will have assimilated basic management theories and concepts for efficient, expert use in a future professional environment;
- He is capable of determining the complex and varied issues that commercial or non-commercial organisations encounter in management fields.
- He is capable of locating organisations in their socio-economic and institutional context, understanding the interdependences between the organisation and the environment and translating them into management decisions;
- He will have developed basic skills in all key management functions.

Aware of the responsibility inherent to his profession, the graduate will have acquired the mindset of a critical participant, capable of making decisions in organisational environments by putting **ethical and socially responsible management values** at the centre of his concerns. He will have adopted an approach of continuous development that will allow him to be a professional demonstrating flexibility, capable of adapting and evolving positively in his environment.

The competency framework

At the end of this programme, the graduate is capable of:

Introduction

The exit profile of the Master 60 in Management evening course graduate is specified by the [LSM competency framework](#), with in particular:

- an academic education centred on management training, with an overall approach to management functions;
- priority given to the following skills:
 - Acting as a socially responsible participant,
 - Mastering knowledge,
 - Acting in an interface role, making use of his professional experience;
- a possibility of developing some of these skills in greater depth through his choice of thesis.

On successful completion of this programme, each student is able to :

1. Corporate citizenship: Act consciously, aware of their responsibilities, placing human and ethical considerations at the very heart of their thinking and actions.

1.1. Demonstrate independent reasoning, look critically and consciously at acquired knowledge (both academic and common sense) and managerial practices, in light of emerging circumstances and their outcomes.

1.2. Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development.

1.3. Decide and act responsibly, while taking into account the social, economic and environmental, sometimes antinomic, outcomes in the short, medium and long term, for the various stakeholders.

2. Knowledge and Reasoning: Master an active and integrated command of a multidisciplinary body of knowledge (content, methods, models, conceptual frameworks) essential to act expertly in the various areas of management.

2.1. Master the core knowledge of each area of management.

2.2. Master highly specific knowledge in one or two areas of management: advanced and current research-based knowledge and methods.

2.3. Articulate the acquired knowledge from different areas of management.

2.4. Activate and apply the acquired knowledge accordingly to solve a problem.

2.5. Contribute to the development and advancement of the management field.

3. A scientific and systematic approach: Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

3.1. Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.

3.2. Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.

3.3. Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.

3.4. Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.

3.5. Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation and Entrepreneurship: Innovate, initiate and lead change.

4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.

4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.

4.3. Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.

4.4. Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment: Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

5.1. Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.

5.2. Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.

5.3. Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership: Integrate and work in a team, exercise enlightened leadership within the group.

6.1. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

6.2. Exercise enlightened leadership skills: unite and motivate different team members, identify, draw on and develop their skills and talents, guide them towards achieving a common goal, while adapting to time constraints and the changing environment.

7. Project Management: Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

7.1. Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.

7.2. Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.

7.3. Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8. Communication and Interpersonal Skills: Communicate, converse effectively and convincingly with the stakeholders.

8.1. Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.

8.2. Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-to-face and group contexts, using both verbal and nonverbal communication skills: demonstrate the ability to listen, empathize, be assertive, provide and accept constructive criticism.

8.3. Persuade and negotiate: understand the needs and viewpoints of others, put forward their reasoning in an appropriate, relevant and persuasive manner, able to bring out points of agreement, even in antagonistic situations.

9. Personal and professional development: Display self-knowledge and independence, able to adapt quickly to new situations and involve positively.

9.1. Independent self-starter: set priorities, anticipate and plan work activities within time constraints, rigorous, structured and thorough, even in changing, uncertain environments or crisis.

9.2. Self-awareness and self-control: be aware of and manage their own emotions, able to be objective about their work and behaviour, and recognize their own strengths and weaknesses, accept them and use them in a professional manner.

9.3. Self-motivation: be capable of creating a project in line with their own values and aspirations, confident and motivated in managing the implementation of the project, and persevere in difficult situations.

9.4. Quick study, lifelong learner: quickly and independently assimilate new information and skills needed to evolve in their professional environment, learn from successes and errors in the spirit of lifelong learning.

Programme structure

The Master's 60 credits in Management (shift schedule) is composed of the following 4 elements:

1. **7 courses** introducing the **main disciplines** making up the management sciences;
2. A 5 credit course on the principles and issues of **corporate social responsibility**, a core value of the Louvain School of Management;
3. **1 elective course** (5 credits)
4. A **final dissertation** (15 credits).

The evening course is designed to enable people engaged in professional life to follow this programme in the best conditions: staggered workload, staggered schedule, adult public referring to its experience and professional projects.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

GEHD2M1 - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- > [General access requirements](#)
- > [Specific access requirements](#)
- > [University Bachelors](#)
- > [Non university Bachelors](#)
- > [Holders of a 2nd cycle University degree](#)
- > [Access based on validation of professional experience](#)
- > [Access based on application](#)
- > [Admission and Enrolment Procedures for general registration](#)

Specific access requirements

In addition to fulfilling the specific conditions described here below, candidates must provide proof of sufficient command of the **French language** (level B2 of the Common European Framework of Reference).

DEADLINES TO SUBMIT A UCLOUVAIN ONLINE REQUEST

- **APRIL 30** for candidates nationals of a **country outside the European Union, not residing in Belgium and needing a visa**
- **AUGUST 31** for all applicants nationals of a **country of the European Union or a national of a country with exemption from visa** (Norway, Liechtenstein, Monaco, Switzerland and Iceland) holders or future holders of a foreign access degree (i.e. **non Belgian degree**) **AND** for all nationals of a **country outside the European Union, residing in Belgium and not needing a visa**
- **SEPTEMBER 30** for all applicants nationals of a **country of the European Union or nationals of a country with exemption from visa** (Norway, Liechtenstein, Monaco, Switzerland and Iceland) holders or future holders of a Belgian access degree (i.e. **Belgian degree**).

Please note that attendance is mandatory as of the beginning of the academic year on September 19.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

See detailed information above on the current page.

For continuing education programme in management, please refer to: <https://uclouvain.be/lsm-formation-continue>

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

It should be noted that entry to all Masters (with the exception of Advanced Masters) can also be gained on submission of a personal application file.

Access based on application for (future) holders of a **Belgian degree**: you must of course meet the general and specific access requirements mentioned in the table above according to the degree you have or will obtain and then you must

1. [complete and submit an online application to UCLouvain and follow the procedure](#)
2. follow the procedure explained on this webpage above the table according to your profile

Access based on application for (future) holders of a **non-Belgian** degree: you must of course meet the general and specific access requirements mentioned in the table above according to the degree you have or will obtain and then you must [complete and submit an online application to UCLouvain and follow the procedure](#)

Admission and Enrolment Procedures for general registration

Students who have a Belgian bachelor's degree in management have direct access. They do not have to follow the admission procedure; they can complete their registration application directly.

Please visit the [UCLouvain enrolment Office](#)

For special LSM procedures, please consult the top of this page.

Teaching method

This program, specifically designed for working people, alternates theoretical presentations and case studies in order to allow a concrete understanding of management issues.

The program attracts an audience from a wide variety of educational and professional backgrounds. The confrontations of different practices and points of view, both between students and professors, and between students, offer an enrichment of the students' perspective on the different fields of management.

Students are invited in various individual or group assignments - to reflect on their professional practice or to study and solve management problems related to their professional field.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The evaluation methods are diverse: individual and/or group work, written or oral exams, final dissertation (TFE).

Possible trainings at the end of the programme
