STIC2M - Introduction

Introduction

Introduction

During the last few decades, the production and diffusion of knowledge has been profoundly influenced by the 'digital revolution' both in the fields of science and technology, as well as humanities and social sciences and arts and letters. Our relationship to knowledge has been dramatically transformed and, a fortiori, the organisation, way of working and even the vocation of traditional places for the transmission and conservation of knowledge and culture, such as libraries, media centres and documentation centres. This rapid development makes new skills necessary in the management, organisation and consultation of documentary data, whether digital or not.

The specialisation in Library Sciences and Documentation is designed to train professionals who not only have solid theoretical knowledge of library sciences, bibliometrics and documentology, are also familiar with the audio-visual world, can use digital technology, are aware of digital humanities issues, have skills in the field of project management (including the management of human and financial resources) and in certain legal aspects such as the application of international ISO standards, or intellectual property and copyright.

The practical training comes together with the theoretical training during one or two work placements totalling 400 hours in public or private institutions, to prepare graduates as well as possible to take on management and coordination roles in departments within libraries, media and documentation centres at a regional, national or international level in teams which manage digital documentation.

Your profile

You

- have had initial university training or have graduated from a higher education institution and wish to focus your training towards the professional fields of production, management and criticism of digital information or those of library sciences and documentary management including digital data ;
- are looking for university level training in the areas of libraries and documentation centres ; or in the fields of the public and private sectors where experience in the production, treatment, management and criticism of digital data is vital ;
- wish to build practical skills on advanced and critical knowledge of information and communication sciences and technologies.

Your future job

The holder of the Master's degree in Science of information and communication technologies is trained to intervene in any situation where an appropriate media response to an issue (informative, social, public health, environmental, civic, etc.) and adapted to the audience concerned is expected. In practical terms, this response will consist of producing a media system tailored to the issues and audiences for whom information needs to be made available and/or knowledge, attitudes and behaviour need to be changed.

In terms of jobs, holders of a master's degree in Science of information and communication technologies can design educational tools, raise awareness of the challenges of innovation in different contexts, manage information or provide training and support in the use of new media. With their multi-disciplinary and sufficient technical, informational and social skills, experts in Information and Communication Sciences and Technologies occupy an essential position between those responsible for 'content' in the fields concerned, public or private institutional decision-makers and the teams responsible for technical design.

In the immediate future, with the proliferation of social intelligence technologies and the very high expectations of both the knowledge industries and public authorities keen to invest in digital educational technologies and information and knowledge management, the digital knowledge mediation environments sector will represent a considerable source of employment, with its high-level skills requirements.

Your programme

The Master's degree offers you

- a wide interdisciplinary range ;
- a varied programme specialisation in which you can combine a focus and an option course depending on your interests and the profile you wish to develop ;
- training which is focussed on awareness of the different career openings: field visits, case studies, practical exercises etc. ;
- a compulsory work placement of a minimum of 3 months in the field (company, laboratory etc.).

STIC2M - Teaching profile

Learning outcomes

The holder of the Master [120] in Information and Communication Science and Technology with professional focus in Librarianship and Documentation trains to meet the challenges of being able to create, manage, develop and promote libraries, multimedia libraries and documentation centres.

At the end of their training, students will be able to effectively integrate into all types of library, multimedia library or documentation centre and there perform a **cultural interfacing role**. Students will be able to employ an whole range of knowledge and skills developed and acquired during the course in this business:

- their ability to **master all types of documentary data** (particularly in the world of digital culture) and ensure their management, organisation and consultation;
- their knowledge and **skills in document review applied to books and/or digital documents**, based on an **academic approach**, within the framework of rigorous scientific and methodological research, anchored in an epistemological perspective;
- their knowledge and skills in the area of **creating and defining projects in library and documentation centre** frameworks, their knowledge and skills linked to the world of libraries, multimedia libraries and documentation centres, whether they are private or public. These skills have been acquired in particular through active immersion in a library, multimedia library or documentation area (a total of 400 hours internship experience).

Thanks to their knowledge and skills, the holder of the ICST Master can be an **effective and expert actor, organiser** and also **communicator** within the framework of libraries, multimedia libraries and documentation centres.

On successful completion of this programme, each student is able to :

1. En terme de compétences générales,

1. Démontrer sa maîtrise des concepts de base relatifs à la compréhension des médias sous l'angle de leurs dispositifs techniques, des systèmes sociaux qui les engendrent et en résultent, et ds systèmes épistémiques qui les génèrent et en sont les produits.

- 1.1.
- 1.2.
- 1.3.
- 1.4.
- 1.5.
- 1.6.
- 1.7.
- 1.8.
- 1.9.

2. 10. Confronté à un problème, démontrer une compétence à en imaginer les solutions alternatives et à choisir la meilleure.

- 2.1.
- 2.2.

Programme structure

The programme is made up of:

- core courses (60 credits), made up of:
 - 18 dissertation credits and 2 credits for the accompanying seminar;
 - 20 credits in basic training;
 - 20 credits of training course
- one focus (30 credits);
- one option (30 credits).

Year

1 2

o Content:

⊗ Module 1 : Couples, familles, sexualités

Les études de genre, à travers le regard de plusieurs disciplines, interrogent les conceptions à propos du couple, de la famille et de la sexualité. L'apport des études de genre permet souvent de réfléchir les multiples formes que peuvent prendre ces différentes sphères, mais aussi d'interroger et de déconstruire les approches conventionnelles et par trop monolithiques d'appréhender le(s) couple(s), la(les) famille(s), la(les) sexualité(s).

⊗ LSEXM2713	Sociological approaches to family and couple	Jacques Marquet	FR [q1] [30h] [5 Credits] 🌐	X	X
⊗ LSEXM2722	Special topics: psychological approaches of contemporary sexualities	Emilie Moget	FR [q1] [30h] [5 Credits] 🌐	X	X
⊗ LSEXM2810	Cultural anthropology of the family and couple	Julie Hermesse	FR [q2] [30h] [4 Credits] 🌐	X	X
⊗ LSEXM2812	Gender approach on the family and couple	Nathalie Frogneux Nathalie Grandjean	FR [q2] [22.5h] [3 Credits] 🌐	X	X
⊗ LSEXM2814	Family policies	Jean-François Husson	FR [q2] [22.5h] [3 Credits] 🌐	X	X
⊗ LFILO2202	Biomedical Ethics	Charles Pence	FR [q1] [30h+0h] [5 Credits] 🌐	X	X

⊗ Module 2 : Cultures et représentations

Par le biais de différentes disciplines et en particulier l'histoire, la littérature, les média et la communication, l'anthropologie, la sociologie, la théologie, la philosophie, etc.). Les études de genre renvoient inmanquablement à toute la question culturelle. Les cours repris dans cette option permettent d'explorer sous un regard neuf, les conceptions en matière de genre et plus spécifiquement les représentations et les discours associés à ce dernier.

⊗ LROM2720	Questions of Literary History	Agnès Guiderdoni	FR [q1] [22.5h] [5 Credits] 🌐	X	X
⊗ LCLIG2160	Sociolinguistics	Philippe Hambye	FR [q1] [15h] [5 Credits] 🌐 > English-friendly	X	X
⊗ LCOMU2200	Genres, cultures and representations	Sarah Sepulchre	FR [q1] [30h] [5 Credits] 🌐	X	X
⊗ LGERM2726	Gender and Sustainability in Utopian/Dystopian Literatures in English	Véronique Bragard	FR [q2] [15h] [5 Credits] 🌐	X	X
⊗ LHIST2733	Early Modern Gender and Religious Issues	Silvia Mostaccio	FR [q2] [22.5h] [5 Credits] 🌐	X	X
⊗ LTHEO2430	Religions and gender	Walter Lesch	FR [q1] [30h] [4 Credits] 🌐	X	X

⊗ Module 3 : Analyse des discriminations et promotion de l'égalité

Les études de genre permettent de révéler et comprendre les inégalités liées à la question du genre (discrimination, ségrégation, domination, etc.). Les cours de cette option présentent les cadres et concepts d'identification et d'analyse des inégalités, ainsi que les stratégies de lutte contre les discriminations et de promotion de l'égalité.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

Prerequisites list

LSTIC2892B "[Mémoire ou Mémoire-projet - Mémoire](#)" has prerequisite(s) LCOMU2910 ET LSTIC2892A

- LCOMU2910 - [Seminar : Support in Methodology](#)
- LSTIC2892A - [Dissertation - preparatory research for dissertation](#)

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

STIC2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

BA en techniques graphiques, orientation Techniques de l'édition - crédits supplémentaires entre 45 et 60

BA en techniques graphiques, orientation Techniques infographiques - crédits supplémentaires entre 45 et 60

Bachelier en robotique industrielle - crédits supplémentaires entre 45 et 60

Holders of a 2nd cycle University degree

Diploma	Special Requirements	Access	Remarks
"Licenciés"			
Holder of a "Licence" in Human Sciences of the French Speaking Community		Access with additional training	
Masters			
Master in Human Sciences of the French Speaking Community		Access with additional training	

Foreign Master

Access based on application

With 15 credits prerequisites integrated into the masters programme or Titre inconnu:lstic1pm

Holders of a non-University 2nd cycle degree

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Admission and Enrolment Procedures for general registration

Requests for additional information regarding admission should be addressed to Mme Laurence Minguet (laurence.minguet@uclouvain.be).

International candidates should submit their request to the University Enrolment Office according to the procedure outlined at : <https://uclouvain.be/inscription>

Teaching method

The mandatory professional internships and all that this brings with it guarantee a balance between reflection of a theoretical and practical nature and knowledge of the 'nuts and bolts' of the jobs in question. Interdisciplinary constitutes a fundamental aspect of the training because along with specific courses come other courses borrowed from the faculties of law, economics, social and political science. The learning set-ups are also highly diverse because they include in particular library visits and visits to archive and documentation centres, publishing houses and commercial and cultural businesses.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Evaluation varies depending on the training undertaken: written or oral exams for the courses and seminars, written reports (with or without oral presentation) for the internships and dissertation.

Partner bodies and companies (for the internships) provide an evaluation; the latter will be included in the overall evaluation.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

If Erasmus exchanges normally take part during the 3rd block of the bachelor, students on the master 120 can take 30 credits in other university institutions in Belgium (course can be borrowed from the KULeuven programme, in line with the UCL-KULeuven agreement) or abroad, and/or undertake internships in Belgium or abroad (for the purposes of their end of study dissertation and/or their focus).

Numerous partnerships with the Faculty of Philosophy, Arts and Letters (FIAL): see <https://uclouvain.be/fr/facultes/fial/partenaires.html>

Practical information for arriving FIAL students : <https://uclouvain.be/en-280048.html>

For more information : [Marie-Julie Malache](#)

Practical information for departing FIAL students : <https://uclouvain.be/fr/facultes/fial/etudiant-fial-en-echange.html>

For more information : [Fabienne de Voghel](#)

Possible trainings at the end of the programme

Other accessible masters :

At the end of the master 120, each focus in the Master in Information and Communication Science and Technology can be obtained in a new block of 30 credits only.
