## DROI2M - Introduction

### Introduction

---

#### Your programme

The master offers:

- a common base of fundamental legal subjects;
- a choice of options during the two years;
- the choice of a professional focus in the second year;
- writing a thesis;
- an internship or an exchange program (in Belgium or abroad).

## DROI2M - Teaching profile

### Learning outcomes

After a three-year bachelor, the programme in Master en droit has the dual objective of adding to the student's general training by teaching fundamental subjects (core courses) and providing him with specialist training in subjects more closely linked to his future professional career (focuses and optional courses). The student chooses his specialisation from the coherent set of subjects.

The balance between general training and specialised training should provide the student with the opportunity to acquire legal skills of a highly technical level, aided by skills in critical reflection.

The Master's programme is also intended to help students familiarise themselves with the world of work (internship and dissertation), broaden their linguistic skills (English courses and exchanges with KULeuven) and perfect their training abroad (Erasmus exchanges).

On successful completion of this programme, each student is able to :

In the first year, the student is required to choose 15 credits from the same option. All options are annual and are taught during the second term.

In the second year, the student chooses 10 elective course credits (either two UEs of the same option, or one option UE and one UE of their purpose or another, or two UEs of their purpose, or one UE of its purpose and one UE of another purpose (from a predefined list)).

The student going on an exchange trip replaces his choice of teaching units for the second quadrimester of the second year with teaching units of his choice in his host university, up to a maximum of 15 credits and subject to the agreement of the Faculty.

## Course prerequisites

---

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

### # Prerequisites list

**LDROI2200** "Mémoire de fin d'études" has prerequisite(s) LDROI2100 ET LDROI2150

- LDROI2100 - [Thesis support seminar](#)
- LDROI2150 - [Legal research methodology](#)

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
