## MINFRAN - Teaching profile

### Learning outcomes

Broaden and/or deepen knowledge and skills in French language and literature and put them to use, in connection with the learning outcomes from your major, in a relevant way in order to study a problem or complex system in literature from within the field in depth, with a view to possibly facilitating the choice of focus and/or options in the student's master. These are the aims of students choosing the [Minor in French Studies](#).

On successful completion of this programme, each student is able to :

1. Master in-depth knowledge and skills in particular fields in the subject of their major (in order possibly to facilitate the focus and/or options in their master).
2. Develop an in-depth understanding of the issues in French language and literature relating to studies that complement those studied in the major.
3. Demonstrate in-depth understanding of a large range of critical analysis tools from within the field of French studies, and the ability to use them where appropriate.

## THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

## MINFRAN - Information

### Bachelors offering this minor

- > [Bachelor in Law](#) [ en-prog-2024-droi1ba ]
- > [Bachelor in Motor skills : General](#) [ en-prog-2024-edph1ba ]

### Teaching method

The courses make use of a variety of teaching techniques and strategies (lectures, group work, individual work, seminars, reading etc.) which help students to acquire the necessary skills. Certain courses also use e-learning techniques (provision of resources and exercises, teaching devices, collective sharing and assessment of work).

### Evaluation

**The evaluation methods comply with the regulations concerning studies and exams. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

According to the type of course, there are different forms of assessment. Certain courses have traditional oral and/or written assessments (which take place in the examination periods in January, June and August/September), while seminars involve student participation throughout the semester and the assessment of individual work. Further details on the assessment method are given at the beginning of each course.

Course examinations on communication skills are designed to test performance, that is to say practical use of the language in meaningful situations, which demonstrate students' level of ability.

Teaching activities are assessed in accordance with the rules currently in force at the University (see [General Examination Regulations](#)). Students may also find additional information on the particular methods of assessment in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.
