## ROMB1BA - Introduction

### Introduction

#### Introduction

Undertaking studies in French and Romance languages and literature means making an important choice for the society of tomorrow: those who master their language, literature and culture because they are able to decode all types of rhetoric and construct convincing arguments, have the keys to understanding the issues at stake in our contemporary civilisation and to intervening in the public sphere or in the media. The future is built not only by those who master innovative technologies, but also by those who oppose preconceived or dangerously simplistic ideas and propose a more enlightened and humanistic vision of the world.

#### Your profile

You love to read and you love literary works of all kinds, including those written before our century. You would like to have a better idea of the processes, understand their mechanisms, analyse them and interpret them. You are curious about understanding your language, its mechanisms, its variations and its development throughout history, and you would like to acquire a high level of proficiency in it. You would like to learn (at least) one other Romance language (Spanish or Italian), and possibly go on a study trip to Spain or Italy (or a French-speaking country). The Romance languages and literature programme is for you!

#### Your future job

Studies in Romance languages and literature can lead to careers in teaching and research. But many other fields are open to you thanks to your linguistic knowledge, analytical skills and rigour.

- Teaching French (upper secondary and higher education), teaching French abroad; teaching Spanish or Italian
- Academic research
- Information and communications sector: journalism, literary criticism, communications training, advertising
- Cultural institutions: museums, theatres, cultural centres
- Books and publishing: collection management, choice of publications, proofreading, relations with authors
- Books and publishing: bookshops, libraries, documentation centres
- Public administration (level 1)
- Private sector: human resources management, communications consultants
- Humanitarian sector
- Literary translation

#### Your programme

The bachelor's degree in Romance languages and literature offers you:

- an education in both literature and linguistics, in French. In both cases, the programme offers a historical approach (history of literature, historical French linguistics, etc.) and a synchronic approach (text analysis, literary theory, grammar, sociolinguistics, etc.)
- a solid general education in the humanities: philosophy, history, historical criticism, art history, European literature and language sciences, also providing you with an understanding of academic methods
- the study of Spanish and/or Italian language and literature
- an important practical dimension (command of the writing process)
- the possibility, after your bachelor's degree, to continue your studies with a master's degree in French and Romance languages and literature. Other options are also available to you if you are reorienting your studies, with a few courses to take in order to catch up if necessary.

#### Pursuing a dual bachelor's degree

Our dual bachelor's degrees are one of the special features of UCLouvain Saint-Louis - Bruxelles.

Students can take a second bachelor's degree, in tandem with their main bachelor's degree. This means that they complete their main programme with a minimum of 60 and a maximum of 125 additional credits spread over several years. The additional bachelor's degree can be completed after the main bachelor's degree. A series of courses taken as part of the main programme count towards the additional bachelor's degree and are therefore no longer subject to assessment. The additional bachelor's degree has the same value as the main bachelor's degree and provides immediate access to the corresponding master's degree.

The following additional bachelor's degrees are available:

- [Bachelor in Philosophy \[Dual Bachelor's degree for the holder of a Bachelor in French and Romance Languages and Letters\]](#)
- [Bachelor in History \[Dual Bachelor's degree for the holder of a Bachelor in French and Romance Languages and Letters\]](#)

## **Programme structure**

---

The bachelor's degree in French and Romance languages and literature: general, includes a total of 180 credits divided into three years (3 x 60 credits). It consists of a major subject of 160 credits and a minor subject of 20 credits.

These studies in French and Romance languages and literature constitute a multi-faceted, rich and varied programme. The French language lies at the heart of these studies: Romanists will scrutinise the language in all of its forms, working with its present-day variations, the sociological and political issues surrounding it (synchronic linguistics), as well as with the language throughout its history and how it evolved from its Latin origins (diachronic linguistics).

At the same time, students will immerse themselves in the literature of yesterday and today, the literature which has always heralded the great revolutions and turning points in history: they will study the main works and movements over time (literary history) and learn to identify the processes used in a text in relation to its aesthetic and critical functions (literary analysis).

Choosing these studies also entails learning another Romance language and its literature. Whether it is Spanish or Italian – or both – learning a foreign language not only enriches the cultural background of Romanists, but it also allows them to deepen their knowledge of French through a comparative approach.

Finally, these studies in French and Romance Languages and Literature also provide the opportunity to acquire other knowledge intended to make students more versatile and sharpen their critical thinking skills through general courses (interdisciplinary education), such as history, art history and philosophy, as well as through optional courses which provide an opportunity to explore another academic discipline.

Beginning in the first term, students will take courses in a specific discipline (specialisation) in addition to the general programme. In the second year, students will be asked to choose a minor subject from a number of options. The minor subject will provide them with the opportunity to learn about another discipline, or to reinforce certain aspects of their studies.

In French and Romance Languages and Literature, the choices are:

- philosophy
- history

- information and communication
- English
- Romance languages (study of two Romance languages, Spanish and Italian)

⦿ Dual Bachelor's degree for the holder of a Bachelor in Philosophy

This programme counts 95 credits.

The student has the opportunity to choose the thematic module in French and Romance languages and literature of the philosophy programme, which comprises 20 credits (4 UE). These 20 credits will be deducted from the dual-degree programme, which will then count 75 credits.

In addition, the student has the possibility to take a Spanish or Italian course (5 credits) as a UE of the language training of the Philosophy programme (standardised annual block 2). This UE will be deducted from the dual-degree bachelor's programme.

The dual-degree bachelor's programme will count for at least 70 credits.

## Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

## The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## ROMB1BA - Information

### Access Requirements

*Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.*

*The admission requirements must be met prior to enrolment in the University.*

**In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.**

#### SUMMARY

- General access requirements
- Specific access requirements
- Access based on validation of professional experience
- Special requirements to access some programmes

### General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

#### Note:

Requests for equivalence must be submitted to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium in compliance with the official deadline.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

### Specific access requirements

- Access to bachelor programmes for candidates of nationality outside the European Union who are not assimilated to Belgian nationals is subject to the following criteria:

- not have obtained a secondary education diploma for more than 3 years maximum. Example: for an admission application for the academic year 2023-2024, you must have obtained your diploma during the academic years 2020-2021, 2021-2022 ou 2022-2023. In the French Community of Belgium, the academic year runs from September 14 to September 13
- not already hold an undergraduate degree

- Candidates, whatever their nationality, with a secondary school diploma **from a country outside the European Union**, must have obtained an average of 13/20 minimum or, failing that, have obtained this average, have passed one year of study in Belgium (for example special Maths / sciences). A non-successful year will not be taken into consideration.

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the **DAES** or a certificate of successful completion of the [examination giving access to 1<sup>st</sup> cycle studies](#) when you submit your application

## Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

## Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**

[Pass certificate for the special entrance examination for undergraduate studies in engineering: civil engineering and architect.](#)

## Teaching method

### A variety of methods

Throughout the bachelor's degree programme in French and Romance Languages and Literature, students are exposed to a variety of teaching methods adapted to different learning objectives, including lectures, practical seminars led by an assistant, group work, independent study, oral presentations and seminars. Some courses also use e-learning techniques (providing resources and exercises, educational management, sharing and group assessment of work).

### Methodological assistance

The Saint-Louis - Bruxelles campus places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of activities and is available to meet students who wish to do so.

## Evaluation

***The evaluation methods comply with the regulations concerning studies and exams. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

Three examination sessions are organised during the academic year, in January, June and August/September. First-year students who do not achieve passing grades in the January session have two opportunities to retake specific examinations, in June and August/September.

Over the course of the bachelor's degree in French and Romance Languages and Literature, there will be oral assessments (oral exams and oral presentations of seminar work) and written assessments (written exams and written personal work). Further information on the specific assessment methods may be found in the course descriptions. Assessment procedures will be specified at the beginning of each course.

Various educational support methods are offered to help students improve their assessment-related skills.

## Mobility and/or Internationalisation outlook

### Exchange programmes

It is enriching to pursue part of one's programme at a foreign university.

Immersed in a new environment, students develop their ability to be adaptable and self-reliant. Furthermore, they often deepen their knowledge of a language other than French and discover a different culture. For these reasons, interuniversity exchanges – whether through Erasmus or outside Europe – are encouraged.

Students in French and Romance Languages and Literature can take part in an exchange programme during the second term of the third year. They can choose from a range of destinations in Spain, Italy and French-speaking countries.

### Language study grants

Students who have submitted a motivated request and have obtained sufficient marks in their June exams can obtain a grant for taking language courses in a European country during the summer holidays. The proposed destinations are mainly in Spain and Italy. The grant covers up to half the cost of the language course and accommodation.

## Possible trainings at the end of the programme

The bachelor's degree in French and Romance Languages and Literature gives direct access to the master's degree (120 and 60) in French and Romance Languages and Literature: general, or French and Romance Languages and Literature: French as a foreign language, organised under the Fédération Wallonie-Bruxelles. It also gives direct access to the master's degree in linguistics (120) and the master's degree in performing arts (120).
