GESM2M - Introduction

Introduction

Introduction

The Master [120] in Management (GESM2M) aims to develop the transferable skills and expertise required for management functions in public and private, national and international, commercial and non-commercial organisations.

On completion of this Master's degree, you will have:

- assimilated management theories and concepts with a view to using them effectively and appropriately;
- placed organisations in their socio-economic and institutional context in order to understand the interdependencies between organisation and environment and translate them into management decisions;
- incorporated the challenges of international competition into socially responsible management practices;
- developed (including via a mandatory company internship and an optional foreign exchange) the skills and know-how to competently handle the complex and varied challenges that organisations face in managing functions and skills at a strategic, tactical and operational level;
- had the opportunity to take advantage of one of LSM's special options, which include international double degrees, the CEMS programme and the digital marketing immersion programme.

The Master in Management offers you:

- teaching by researchers and experts in the field;
- active teaching methods;
- a strengthening of your language skills directly applied to professional management practices: targeted courses given in English; integrated language support systems in certain learning units of the program (support for teaching activities carried out in English, support for the use of the foreign language for the dissertation and internship), advanced level language courses;
- the opportunity to study for one term at one of the 145 partner universities;
- a management internship within a company;
- the only available access in Belgium to the [CEMS selection](#) (from the LLN campus) programme with a view to also obtaining the Master's degree in International Management (CEMS);
- the opportunity to specialise in auditing and accountancy;
- access to the inter-faculty Entrepreneurship specialisation (INEO major, based on your academic record) or the Sustainable Management specialisation (Philippe de Woot major in Corporate Sustainable Management);
- the opportunity to specialise in Marketing and obtain a BASF certificate from visiting trainers from BASF Management Consulting (BASF headquarters, Germany) in two courses (the Tactical and Digital Marketing Decisions majors and the Marketing Decisions option);
- the opportunity to take part in the IB selection programme (exchange with a partner university and a six-month internship in a company outside the European Union);
- the opportunity to complete a double degree organised with one of seven prestigious partner universities;
- the opportunity to become a [digital marketing expert](#);
- the opportunity to do a major and an option in your chosen field with a view to becoming an expert in that field.

Your profile

You:

- meet the admission requirements for this programme;
- wish to use your entrepreneurial skills and transform initiatives into economic and social realities;
- tend towards decision-making and management functions;
- are aiming for excellence in national and international management.

Your future job

A position of responsibility in corporate leadership and management in which you can put into practice your ability to undertake initiatives, transform them into economic realities, organise and ensure the continuity of these activities, seek out the necessary resources and combine them in an appropriate manner.

Our management graduates make a career for themselves in many sectors, including industry (production and operations management), banking and insurance, auditing and large-scale retail, in private companies, public organisations, non-profit organisations, SMEs, multinationals and consultancy firms.

They hold positions of responsibility, such as management controller, company auditor, investment adviser, financial analyst, HR development manager, project manager, IT consultant, sales manager, purchasing manager, logistics manager or environmental manager.

Your programme

The 120-credit Master's programme will comprise:

- professional focus courses on management topics (finance, marketing, strategy, etc.), as well as seminars;
- one major, comprising six courses to be selected from the main fields of management;
- a one-term exchange (highly recommended but not compulsory) or a term of six courses, including a foreign language and an option comprising three courses;
- an internship;
- a dissertation.

Note that, depending on your previous studies, some course units (= prerequisite courses) may be added to your Master's programme.

Your parcours

This Master's programme gives access to:

- various advanced Master's degrees
- graduate management school
- teacher training certificate (upper secondary education)

GESM2M - Teaching profile

Learning outcomes

The Master in Management programme **prepares graduates to take up the challenge of becoming socially responsible professionals with a cross-disciplinary approach to the various management functions**.

The **Master in Management** programme develops the transferable skills and expertise required for management functions in public and private, national and international, commercial and non-commercial organisations.

By the end of this programme, graduates will have developed (including via a mandatory company internship and an optional foreign exchange) the skills and know-how to competently handle the complex and varied challenges that organisations face in managing functions and skills at a strategic, tactical and operational level. They will also have specialised in one or more management functions, such as HR, marketing, finance, accounting, operations and logistics or e-business.

On completion of this programme, graduates will be:

- **Responsible:** able to implement socially responsible management practices in public or private organisations while taking into account the challenges of international competition.
- **A professional who:**
 - has assimilated management theories and concepts and has the expertise to use them effectively in a professional environment;
 - is able to place organisations in their socio-economic and institutional context to understand the interdependencies between organisation and environment and translate them into management decisions;
 - has developed significant competence in the key management functions and their international dimensions;
 - is able to handle a wide variety of management issues with consideration for different economic, social and political environments.

Aware of the responsibility inherent in their profession, graduates must be able to step up to the mark as a key player, demonstrating the ability to make decisions in organisational environments with a constant concern for **ethical values and socially responsible management**. A continuous development mindset will produce professionals with versatility, adaptability and the ability to progress in their profession.

On successful completion of this programme, each student is able to :

Preamble

The exit profile of Master in Management graduates is set out in the **LSM competency framework** with the following specifics:

- a background in economics and management studies, with a cross-disciplinary approach to management functions;
- priority skills:
 - a socially responsible mindset;
 - acquired knowledge;
 - experience in an international and multicultural environment;
- the possibility of developing some of these skills in greater depth through their choice of options, tracks, dissertation, internship and exchange.

1.

Corporate citizenship

Act consciously, aware of their responsibilities, placing human and ethical considerations at the very heart of their thinking and actions.

1.1 Demonstrate independent reasoning, look critically and consciously at acquired knowledge (both academic and common sense) and managerial practices, in light of emerging circumstances and their outcomes.

1.2 Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development.

1.3 Decide and act responsibly, while taking into account the social, economic and environmental, sometimes antinomic, outcomes in the short, medium and long term, for the various stakeholders.

2. Knowledge and Reasoning

Master an active and integrated command of a multidisciplinary body of knowledge (content, methods, models, conceptual frameworks) essential to act expertly in the various areas of management.

2.1 Master the core knowledge of each area of management.

2.2 Master highly specific knowledge in one or two areas of management: advanced and current research-based knowledge and methods.

2.3 Articulate the acquired knowledge from different areas of management.

2.4 Activate and apply the acquired knowledge accordingly to solve a problem.

2.5 Contribute to the development and advancement of the management field.

3. A scientific and systematic approach

Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

3.1 Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.

3.2 Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.

3.3 Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.

3.4 Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.

3.5 Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation and Entrepreneurship

Innovate, initiate and lead change.

4.1 Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.

4.2 Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.

4.3 Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.

4.4 Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment

Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

5.1 Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.

5.2 Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.

5.3 Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership

Integrate and work in a team, exercise enlightened leadership within the group.

6.1 Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

6.2 Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

7. Project Management

Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

7.1 Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.

7.2 Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.

7.3 Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8 Communication and Interpersonal Skills

Communicate, converse effectively and convincingly with the stakeholders.

8.1 Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.

8.2 Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-to-face and group contexts, using both verbal and nonverbal communication skills: demonstrate the ability to listen, empathize, be assertive, provide and accept constructive criticism.

8.3 Persuade and negotiate: understand the needs and viewpoints of others, put forward their reasoning in an appropriate, relevant and persuasive manner, able to bring out points of agreement, even in antagonistic situations.

9. Personal and professional development

Display self-knowledge and independence, able to adapt quickly to new situations and involve positively.

9.1 Independent self-starter: set priorities, anticipate and plan work activities within time constraints, rigorous, structured and thorough, even in changing, uncertain environments or crisis.

9.2 Self-awareness and self-control: be aware of and manage their own emotions, able to be objective about their work and behaviour, and recognize their own strengths and weaknesses, accept them and use them in a professional manner.

9.3 Self-motivation: be capable of creating a project in line with their own values and aspirations, confident and motivated in managing the implementation of the project, and persevere in difficult situations.

9.4 Quick study, lifelong learner: quickly and independently assimilate new information and skills needed to evolve in their professional environment, learn from successes and errors in the spirit of lifelong learning.

Programme structure

LOUVAIN
School of Management

The Master [120] in Management has four elements :

1. Common core curriculum

This includes the dissertation and its seminar, an internship that can be tied in with the dissertation topic as well as foreign language courses.

2. A professional focus

This involves more in-depth study of different management topics (strategy, finance, management control, marketing and human resources).

3. A major

This is a two-part course that enables students to specialise in one of the fields of management (marketing, strategy and organisation, finance, auditing, etc.). Students will have access to the majors that are offered at both the Mons and the Louvain-la-Neuve campuses of Louvain School of Management.

4. Exchange or LSM option and courses

In the second year, students have the opportunity to either take one or more exchange courses at one of the 145 partner universities of Louvain School of Management or continue to specialise with LSM courses and a 15-credit option.

Note that, depending on your previous studies, the examination board may add some course units (= prerequisite courses) to your Master's programme.

LSM also offers Master's [120] students seven tracks that pursue specific educational objectives. These are accessed through a selection process, which, for some, takes place in the academic year prior to entry into the first year of the Master's programme.

The CEMS Master in International Management – CEMS MIM

LSM is the exclusive Belgian partner of this network, which has, for some years now, brought together leading European business schools and several partners outside Europe.

Interdisciplinary Programme in Entrepreneurship - INEO

This programme brings together students from several UCLouvain faculties and equips them with the analytical and thinking tools they need to understand entrepreneurial processes, create or take over a business (private limited liability company, non-profit organisation, public limited company, etc.) or progress entrepreneurial projects within existing organisations.

The International Business (IB) programme

This programme is for students who would like to embark on an international career. By combining a preparatory major specific to this programme, exchange courses and a six-month internship in a multinational company abroad, it cultivates the open-mindedness, intercultural skills, adaptability and proactivity required for working in an international environment. The students selected for the IB programme will therefore spend the whole of their second year abroad, successively completing an international exchange and a six-month internship in a company outside Europe.

Double degree - DD & DDD

By accumulating 60 course credits at Louvain School of Management, approximately 40 course credits at the DD partner university and a joint dissertation for both universities (20 credits), students will be awarded two Master's degrees, one from LSM and the other from the partner university:

- Prague University of Economics and Business (Czech Republic)
- University of Cologne (Germany)
- Norwegian School of Economics and Business Administration – NHH (Bergen, Norway)
- Universidade NOVA de Lisboa (Lisbon, Portugal)
- Vytautas Magnus University (Kaunas, Lithuania)
- Aix-Marseille University (Aix-Marseille, France)
- KU Leuven (Leuven, Belgium)
- Instituto Superior Técnico - Technical University of Lisbon (Lisbon, Portugal)

A dedicated double degree (DDD) with a focus on Environmental Issues and Supply Chain Management is offered exclusively by LSM and NHH.

The Auditing stream (major + option) at the Mons campus.

The Digital Marketing programme (in connection with the IPM Digital Marketing chair)

This programme is for students who wish to specialise in digital marketing. By combining marketing options in the first year, primarily the Digital Marketing option, with a work placement option in the second year, the programme offers a combination of in-company experience and university education (two days at university/three days at work) in the second year of the Master's. In addition to the eight-month work placement, there are monthly workshops with industry and academic experts for formative discussions on key digital marketing topics.

OPTIONS

Year 1: compulsory major chosen from those on offer at the Mons and Louvain-la-Neuve campuses and two foreign language courses

Year 2: compulsory option, elective and two foreign language courses (for students not going on an exchange)

Note:

- Mons students who choose one of the Louvain-la-Neuve campus majors (5 course units (CUs) instead of 6 for Louvain-la-Neuve students) will also have to take the LLSMS2221 Tutoring and In-Depth Study CU.
- Mons students who choose one of the Louvain-la-Neuve campus options will take the LLSMS2221 Tutoring and In-Depth Study CU (the LLSMS2091 Cross-Cultural Competences and Management CU initially intended for Louvain-la-Neuve students with timetable clashes).
- If a Louvain-la-Neuve major and option are combined, the exam board will decide on a case-by-case basis which CU will replace LLSMS2221 as part of the option.
- If your chosen major/option is not available at your main campus, there is travel support on offer.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

GESM2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Specific access requirements

In addition to fulfilling the specific conditions described here below, candidates must provide proof of sufficient command of the **French language** (level B2 of the [Common European Framework of Reference](#)).

Given the organization of courses taught in **English** within the programme, a sufficient command of this language (level B1 of the [Common European Framework of Reference](#)) is strongly recommended.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

(with the exception of specialized masters).

For professionals who wish to acquire basic training in management sciences, consult [Master \[60\] in Management \(shift schedule\)](#) (Mons site) or [Master \[60\] in Management \(shift schedule\)](#) (Charleroi site).

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

In the event of access on file, and depending on the diploma you hold, please refer to the "general and specific conditions of access" which can be downloaded in PDF format by simply clicking on the hyperlinks given in the tables above.

Admission and Enrolment Procedures for general registration

Teaching method

This programme, the quality of which has been recognised by external auditors of the international EQUIS accreditation programme, offers four key advantages:

A particularly wide range of specialisation majors and options

With access to over 30 majors/options, students can specialise in the most advanced fields of management. It is general practice for them to further develop their specialist skills and knowledge by selecting the same field for their dissertation and internship. These majors and options are available at both LSM campuses (Mons and Louvain-la-Neuve) and, in most cases, the courses are held over two (maximum three) weekdays to facilitate travel between campuses.

Combination of academic knowledge and workplace experience

The programme is taught by an equal balance of teachers who are also practising researchers in their field and professionals selected for their widely acknowledged experience and expertise. Students must also complete an internship in a company and their dissertation can take the form of an individual final project by addressing an issue or assignment identified during their internship. Links with the business world are a constant of both classroom teaching and the extra-academic activities organised by the School's Corporate unit.

Teaching methods focused on learning and developing transferable skills

In concrete terms, this means that the teaching methods virtually always focus on problem-solving, collaborative learning (case studies, project, problems, simulations) and self-guided work. This approach is supported by compulsory reading, theory classes and lectures, with an equal balance between continuous and final assessment, and between individual and group assessment.

A strong international focus

The international aspect of this programme is supported by a particularly extensive network of exchange partners (over 140 partner business schools), access (from LLN campus) to the [CEMS](#) Master in International Management (we are the only university in Belgium offering this) and the opportunity to obtain a [double degree](#) with one of seven prestigious partner universities.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Several [assessment methods](#) are used in this programme, with a particular focus on what are known as "active" teaching methods, which encourage students to take an active role in the learning process:

- **continuous assessment** of each student's output/acquired knowledge, individually or in groups: presentations, moderation of debates, written reports;
- **ad hoc assessment** of acquired knowledge via written and oral exams after the six-week course block or during the examination sessions.

To find out more about assessment, click on the title of the course to see the course description.

Mobility and/or Internationalisation outlook

Internationalisation

This Master's programme has the added benefit of offering various mobility and internationalisation options:

- Many LSM courses are taught in English.
- **One term abroad** (30 credits) ([exchange programme](#)) at one of the 145 partner universities that are renowned worldwide for their management courses.
- **One term in Flanders** (30 credits) (Erasmus Belgica) at one of the three partner universities renowned for their management courses.
- A unique opportunity, exclusive in Belgium to LSM, to take the **CEMS Master in International Management** run by the [CEMS](#) Global Alliance in Management Education network (from LLN campus), plus exclusive access to the [PIM](#) (Partnership in International Management) network.
- The opportunity to spend the **second year abroad** as part of the **International Business (IB)** programme, which offers an exchange at a partner university and a six-month internship at a company outside the European Union.
- The possibility of obtaining **two Master's degrees** by combining a full year at LSM (UCLouvain) and another full year at a partner university. Several [DDs \(double degrees\)](#) and a [DDD](#) (dedicated double degree) are offered in partnership with seven prestigious European universities.

Internships and contact with the business world

The second term of Year 2 of the Master's programme is given over to an internship (minimum three months) at a company or organisation. Completing this work placement and a dissertation (which may or may not be tied in with the internship) offers greater contact with the business world at the end of the programme. With many options for internships or stays abroad, in Europe or elsewhere in the world, students will be better prepared to enter the workplace.

Courses are also given in foreign languages by visiting professors.

Possible trainings at the end of the programme

- [PhD in Management](#) (Louvain-la-Neuve & Mons)
- [Titre inconnu:envi2m](#) (Louvain-la-Neuve)
- [Master \[60\] in Information and Communication](#) (Mons)
- [Master \[60\] in Information and Communication](#) (Louvain-la-Neuve)
