Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme** : their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration puposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the Academic Regulations and Procedures .

MGEHC2155 "Séminaire d'accompagnement du mémoire" has prerequisite(s) MGEHC2125

- MGEHC2125 - Seminar on Research Methods in Taxation and Accountancy

The programme's courses and learning outcomes

For each UCLouvain training programme, a reference framework of learning outcomes specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Admission and Enrolment Procedures for general registration

Teaching method

Ce programme spécifiquement conçu pour des personnes qui travaillent, alterne exposés théoriques et études de cas afin de permettre la compréhension concrète des problématiques de gestion.

Le programme attire un public de formation et d'horizons professionnels très variés. Les **confrontations de pratiques** et de points de vue divers, tant entre étudiants et professeurs, qu'entre étudiants entre eux, offrent un enrichissement de la perspective des étudiants sur les différents domaines de la gestion.

Les étudiants sont invités, dans différents **travaux individuels ou de groupe** , à porter un regard réflexif sur leur pratique professionnelle ou à étudier et résoudre des problèmes de gestion en lien avec leur domaine professionnel.

Ce programme bénéficie d'un corps professoral principalement composé de praticiens expérimentés et privilégie donc une approche pédagogique basée sur les études de cas, les séminaires et les travaux pratiques.

Evaluation

The evaluation methods comply with the Academic regulations and procedures . More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Les méthodes d'évaluation sont diverses : réalisation de travaux individuels et/ou de groupe , passage d'examens écrits ou oraux, réalisation d'un mémoire.
