### Bachelors offering this minor

---

### Access Requirements

---

The program for the Dutch Language and Culture minor has been modified as of the 2024-2025 academic year. The programme presented here applies for students enrolled in the minor in Dutch studies before the 2024-2025 academic year. For students who opt for this minor in block 2 in 2024-2025 for the first time, it's [this programme](#) that applies.

### Teaching method

---

The courses make use of a variety of teaching techniques and strategies (lectures, group work, individual work, seminars, reading etc.) which help students to acquire the necessary skills. Certain courses also use e-learning techniques (provision of resources and exercises, teaching devices, collective sharing and assessment of work).

### Evaluation

---

**The evaluation methods comply with the [Academic regulations and procedures](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

According to the type of course, there are different forms of assessment. Certain courses have traditional oral and/or written assessments (which take place in the examination periods in January, June and August/September), while seminars involve student participation throughout the semester and the assessment of individual work. Further details on the assessment method are given at the beginning of each course.

Course examinations on communication skills are designed to test performance, that is to say practical use of the language in meaningful situations, which demonstrate students' level of ability.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

### Possible trainings at the end of the programme

Minor in Dutch language and culture does not provide direct access to a specific access point.
