## MINOGEST - Teaching profile

### Learning outcomes

To provide students with an introduction to the basic disciplines of business studies (knowledge), and acquaint them with the tools and methods of company management (know-how), possibly allowing for the students to go on to study for a master's in Business studies.

On successful completion of this programme, each student is able to :

1. Démontrer une compréhension d'un socle de connaissances en sciences de gestion.
2. Démontrer une connaissance et une compréhension des outils et méthodes de base des sciences de gestion.
3. Découvrir et saisir la rigueur exigée et faire preuve de cette intégration.
5. Percevoir les spécificités des sciences de gestion et construire une réflexion complémentaire à celle de la discipline de sa majeure afin d'enrichir l'étude d'une problématique.

## THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## MINOGEST - Information

### Evaluation

---

*The evaluation methods comply with the [Academic regulations and procedures](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".*

### Possible trainings at the end of the programme

---

The minor in business studies does not allow students to automatically go on the Master's in Business Studies unless they meet a number of conditions (with the consent of the person in charge of the program) : consideration will be paid to the all the courses that made up the student's baccalaureate, and, where the student has not taken certain courses, they will be added to the Master's in Business Studies program (maximum 15 credits). The student must have completed an " introduction to blue-collar work " and have written an analysis report on the subject. This introduction consists of one week of work, primarily of a manual nature, in companies, associations, etc.
