## PSY2M - Introduction

### Introduction

---

## PSY2M - Teaching profile

### Learning outcomes

Psychologists are required to develop and apply knowledge, practices, models and methods of psychology, within an ethical and scientific framework, in order to promote the development, the well-being, perhaps even the efficiency of individuals, groups, organizations or society.

The Master programme is therefore focused on developing skills in the following fields : knowledge of the discipline, interpersonal and professional relationships, methods for diagnosis and assessment, intervention with the aim of re-establishing optimal behaviour, ethically sound attitude and knowledge of the legal structures in which the profession works, effective and appropriate communication, professional development (continuous updating of knowledge and skills).

On successful completion of this programme, each student is able to :

#### **A. Analyser une situation (individuelle ou collective) en mettant en œuvre de manière précise et rigoureuse les concepts fournis par les théories ou approches pertinentes**

- A1. maîtriser les connaissances qui permettent d'expliquer et de comprendre un individu, un groupe ou une organisation;
- A2. analyser, critiquer de manière argumentée et modéliser une situation (individu, groupe ou organisation) en référence à des théories, résultats de recherche, méthodes et outils relevant de la psychologie.

##### A1

- *comprendre et expliciter l'objet spécifique et les grands courants théoriques au sein de la psychologie et de l'éducation*
- *comprendre et expliciter l'objet spécifique et les grands courants théoriques des disciplines proches : philosophie, économie, droit, sociologie, anthropologie, linguistique*
- *comprendre et expliciter les fondements biologiques du comportement et de la cognition*
- *comprendre et expliciter les fondements culturels du comportement et de la cognition*
- *comprendre et expliciter les liens qui existent entre la psychologie, la logopédie, les sciences de l'éducation et les disciplines proches*
- *comprendre et expliciter les modèles des modes de fonctionnement ordinaires et atypiques les plus fréquents des individus, groupes et organisations*
- *comprendre et expliciter les modèles des pathologies psychologiques les plus fréquentes*

##### A2

- *connaître les différents outils d'observation et d'analyse qui permettent d'expliquer et de comprendre un individu, un groupe ou une organisation*
- *sélectionner les données, théories, méthodes et outils pertinents face à une situation simple*
- *utiliser ces données, théories, méthodes et outils pour modéliser une situation simple*
- *prendre conscience de l'influence de ses propres représentations et préjugés dans son analyse*
- *faire la distinction entre une analyse professionnelle et une analyse relevant du sens commun*

#### **B. Elaborer un plan d'intervention théoriquement et empiriquement justifié afin de modifier une situation individuelle ou collective, mettre en œuvre ce plan et en évaluer l'efficacité**

- B1. maîtriser les connaissances à propos des interventions visant à améliorer une situation donnée (individu, groupe ou organisation);
- B2. planifier une intervention visant à améliorer une situation donnée (individu, groupe ou organisation);
- B3. mettre en œuvre un plan d'intervention, en tout ou en partie, et en évaluer l'efficacité.

##### B1

- *comprendre et expliciter les principaux types d'interventions des psychologues face aux pathologies ou dysfonctionnements les plus fréquents des individus, groupes et organisations*
- *comprendre et expliciter la méthodologie liée à la planification, la réalisation et l'évaluation de l'efficacité d'une intervention*
- *comprendre les principaux enjeux sociaux, légaux, politiques, économiques et culturels dans une situation d'intervention simple*

##### B2

- *identifier les interventions pertinentes à une situation simple en tenant compte de l'analyse de cette situation et des enjeux divers (e.g., sociaux, légaux, politiques, économiques et culturels)*
- *programmer les différentes étapes et identifier les différents acteurs en référence à des modèles théoriques d'intervention*

#### **C. Communiquer une information précise, correcte et pertinente à l'aide d'un support adapté au contenu et au public visé**

- C1. présenter oralement et par écrit une synthèse en l'adaptant à différents publics et aux intentions poursuivies;
- C2. structurer et présenter des données recueillies.

##### C1

- *synthétiser des résultats provenant de différentes sources d'évaluation en vue de tester l'hypothèse de travail, d'argumenter un diagnostic différentiel, ou de motiver une décision*
- *faire des liens entre les matières et les activités suivies dans le programme de Bachelier*
- *se détacher de communications naïves (relevant du sens commun) pour tendre vers une posture professionnelle et justifier cette distinction*

##### C2

- *structurer les éléments recueillis lors d'une analyse de la demande*
- *comprendre, interpréter et rapporter de manière standardisée (e.g., normes APA) les résultats issus d'une analyse statistique*

**D. Interagir efficacement avec différents acteurs en réseaux impliqués dans une situation donnée, sur des plans interpersonnel et professionnel**

- D1. se mettre à l'écoute d'autrui en situations d'apprentissage et en milieux professionnels;
- D2. interagir et collaborer en réseau de façon adaptée en situations d'apprentissage et en milieux professionnels;
- D3. adopter une posture critique en situations d'apprentissage et en milieux professionnels, vis-à-vis d'autrui et de soi-même.

*D1.*

- *s'intégrer au sein d'une équipe*
- *écouter activement et comprendre de manière empathique une personne dans un contexte interpersonnel de consultation/entretien à un niveau de base (i.e., un seul client/patient; adulte; situation de face-à-face; problèmes simples)*

*D2.*

- *utiliser différents moyens de communication (e.g., écrit, oral, audio-visuel)*
- *connaître les conditions d'un apprentissage collaboratif*
- *Interagir avec d'autres (étudiants) en vue d'atteindre un objectif commun*

*D3.*

- *s'ouvrir et accepter le point de vue des membres d'une équipe*

**E. Agir en tant que psychologue universitaire, de manière rigoureuse, déontologique et éthique**

- E1. maîtriser les étapes, les méthodologies et les outils de la recherche scientifique en psychologie et en sciences de l'éducation;
- E2. identifier l'apport et la plus-value de la recherche scientifique en psychologie et en sciences de l'éducation sur sa compréhension de situations données;
- E3. agir en tant que professionnel des sciences psychologiques et de l'éducation en se référant, entre autres, aux principes de l'éthique et de la déontologie.

*E1*

- *comprendre et appliquer la démarche inductivo-hypothético-déductive*
- *identifier les sources d'informations pertinentes en regard d'une problématique de recherche*
- *comprendre les forces et faiblesses des méthodologies principalement utilisées dans la recherche contemporaine du domaine*
- *comprendre les forces et faiblesses inhérentes à un compte-rendu de recherche (au niveau méthodologique, empirique et théorique)*
- *comprendre et appliquer les concepts principaux de probabilité et de statistiques utiles dans le domaine*
- *utiliser un logiciel d'analyse statistique et l'appliquer à une base de données*

*E2*

- *faire une analyse critique de la littérature existante sur une problématique de recherche du domaine*
- *discerner les spécificités d'une approche scientifique plutôt que naïve du domaine*

*E3*

- *connaître les cadres légaux et le code de déontologie qui régissent la pratique du psychologue, les appliquer et les respecter dans ses travaux, examens, relations avec les milieux professionnels et les différents intervenants dans la formation*
- *se référer aux règles en matière d'éthique de la recherche dans ses travaux, examens, et relations avec les milieux professionnels*

**F. Evaluer et accroître son professionnalisme et ses compétences**

- F1. mettre en œuvre les moyens et les opportunités pour se développer en tant que personne;
- F2. mettre en œuvre les moyens et les opportunités pour développer un projet professionnel personnel.

*F1*

- *apprendre à apprendre sur la base de sa propre expérience et avec d'autres*
- *identifier et utiliser les ressources de formation continue*
- *développer des compétences informationnelles nécessaires pour se documenter de façon autonome et critique*

*F2*

- *formuler un projet professionnel connecté aux connaissances acquises au cours de sa formation et à ses forces et faiblesses, ainsi qu'à une compréhension des milieux professionnels*
- *s'outiller pour favoriser son auto-apprentissage*

## Programme structure

---

In addition to the core courses, the student will make a choice between the professional focus and the research focus. Then, the student will have the choice between nine options; for students in research focus, it is recommended to choose the option "Methods of research in psychology". Finally, the student will be able to complete his program with elective courses, thematic module, complementary internship or the Interdisciplinary Program in Entrepreneurship (CPME).

## PSY2M Programme

### ⌘ courses from other master programs (intra / extra faculty)

#### ⌘ des cours choisis parmi les trois modules en genre

##### ⌘ Module 1 : Couples, familles, sexualités

Les études de genre, à travers le regard de plusieurs disciplines, interrogent les conceptions à propos du couple, de la famille et de la sexualité. L'apport des études de genre permet souvent de réfléchir les multiples formes que peuvent prendre ces différentes sphères, mais aussi d'interroger et de déconstruire les approches conventionnelles et par trop monolithiques d'appréhender le(s) couple(s), la(les) famille(s), la(les) sexualité(s).

⌘ LSEXM2713	Sociological approaches to family and couple [M]		FR [q1] [30h] [5 Credits] 🌐	X	X
⌘ LSEXM2722	Special topics: psychological approaches of contemporary sexualities		FR [q1] [30h] [5 Credits] 🌐	X	X
⌘ LSEXM2810	Anthropology of the family and contemporary sexuality [M]		FR [q2] [30h] [4 Credits] 🌐	X	X

## Course prerequisites

---

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## PSY2M - Information

### Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

**In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.**

#### SUMMARY

- > [General access requirements](#)
- > [Specific access requirements](#)
- > [University Bachelors](#)
- > [Non university Bachelors](#)
- > [Holders of a 2nd cycle University degree](#)
- > [Holders of a non-University 2nd cycle degree](#)
- > [Access based on validation of professional experience](#)
- > [Access based on application](#)
- > [Admission and Enrolment Procedures for general registration](#)

### Specific access requirements

Apporter la preuve d'une maîtrise suffisante de la langue française (niveau B2 du [Cadre européen commun de référence](#) ).

#### University Bachelors

Diploma	Special Requirements	Access	Remarks
<b>UCLouvain Bachelors</b>			
Titre inconnu:lp1ba		Direct access	
Titre inconnu:l1go1ba		<a href="#">Access based on application</a>	
<b>Others Bachelors of the French speaking Community of Belgium</b>			
		Direct access	
Bachelier en sciences psychologiques et de l'éducation, orientation logopédie		<a href="#">Access based on application</a>	Le programme de master pourra être augmenté de 15 ECTS maximum
<b>Bachelors of the Dutch speaking Community of Belgium</b>			
Bachelor in de psychologie		Direct access	
		<a href="#">Access based on application</a>	
<b>Foreign Bachelors</b>			
		<a href="#">Access based on application</a>	

#### Non university Bachelors

> Find out more about [links](#) to the university

Diploma	Access	Remarks
BA - assistant(e) en psychologie - crédits supplémentaires entre 45 et 60	Les enseignements supplémentaires éventuels peuvent être consultés dans le <a href="#">module complémentaire</a> .	Type court

## Holders of a 2nd cycle University degree

Diploma	Special Requirements	Access	Remarks
<b>"Licenciés"</b>			
		<a href="#">Access based on application</a>	
<b>Masters</b>			
		Direct access	
Master en sciences de l'éducation		<a href="#">Access based on application</a>	Sous réserve d'acceptation du dossier.

## Holders of a non-University 2nd cycle degree

### Access based on validation of professional experience

It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

### Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

## Admission and Enrolment Procedures for general registration

## Specific professional rules

---

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

## Teaching method

---

Importance given to practical training : the work placement and the dissertation account for half the 120 credits in the programme. These activities are closely supervised by all the professors and assistant teaching staff at the Faculty.

## Evaluation

---

***The evaluation methods comply with the [Academic regulations and procedures](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading “Learning outcomes evaluation method”.***

There will be a written examination for courses with high attendance. For other courses there will either an oral examination, individual work or group work. Further details can be found in the course specifications.

## Mobility and/or Internationalisation outlook

---

There is partnerships with the University of Geneva : some courses may be taken in this university.

## Possible trainings at the end of the programme

---

Advanced Master : University and Higher Education Teaching

Doctoral programmes : Doctoral school training in Psychology

## Certificates

---

Psychosocial Well-being at Work

Early intervention for people with learning difficulties or at risk (under construction)
