

SCIENCEINFUSE

Science Promotion and Outreach

WHAT WE OFFER : SERVICES & EXPERTISE

- **Science Outreach Activities**
Hands-on workshops, school visits and campus activities designed to make science engaging accessible and inspiring for young audiences
- **Research Dissemination & Public Engagement**
Support for researchers in communicating their work and creating meaningful connections between research and society
- **Educational Resources**
Development of pedagogical tools and materials to support teachers and enhance science learning in the classroom

What can we do?

- **Organize Science Workshops**
We design and run hands-on activities for schools, on campus or in classrooms
- **Support Outreach Projects**
We help develop and coordinate science outreach initiatives involving researchers and teachers
- **Provide Educational Materials**
We create and share teaching resources
- **Coordinate Science Event**
We contribute to and organize large-scale outreach events

What are our fields of intervention?

- **Early science awareness** and promotion of science and technology education
- **Introduction to STEM** studies at UCLouvain
- **Strengthening the link** between research, education and society
